ARTICLE I

AGREEMENT

This Agreement is made by and between the Board of Trustees of Delaware State College and the Delaware State College Chapter of the American Association of University Professors. This document sets forth the agreement of the parties on matters of collective negotiations pursuant to the Public Employee Bargaining Provisions of the Delaware Code.

ARTICLE II

PURPOSE

2.1 The intents and purposes of this Agreement are to improve the quality and effectiveness of education at Delaware State College by promoting the highest standards of academic excellence in all phases of instruction, research, and public service. To that end, this Agreement aims to insure a healthy and viable institution of higher learning, capable of supporting a quality program of teaching, research, and professional service. This Agreement aims at achieving and maintaining academic excellence, facilitating effective faculty participation in decisions affecting the welfare of the college, assuring fair and reasonable conditions of employment, and providing techniques and procedures for the peaceful adjustment of disputes, should these arise.

2.2 It is recognized by both the College and the Association that mutual benefits are to be derived from continual improvement of Delaware State College, and that participation with faculty and professional employees in the formulation of policies under which they provide their services is educationally sound.

2.3 While the Association, as the elected bargaining agent, retains the exclusive rights to negotiate and reach agreement on terms and conditions of employment for members of the bargaining unit, and the Board of Trustees, under law maintains the right to manage and direct the College, both parties recognize the desirability of a collegial system of governance for faculty and professional employees in areas of academic concern. It is, therefore, desirable that a collegial system of governance be maintained and strengthened at Delaware State College.

2.4 In such a collegial system, departments and other units should play an active and responsible role in academic matters, including significant involvement in the recruitment of new faculty members and professional employees, the development of quality programs and other matters of professional concern. The collegial relationship is most effective when faculty work together to carry out their duties in the most professional manner possible.

2.5 Collegiality in academic governance at Delaware State College can best be accomplished through a Faculty Senate elected by represented departments and constituencies in accordance with the Faculty Senate Constitution as formally adopted by the faculty and approved by the Board. It is hoped that this Agreement will strengthen faculty involvement through the academic departments, the Faculty Senate, and the full faculty in session which has authority over the Faculty Senate in the collegial governance of Delaware State College.

2.6 The parties acknowledge that the faculty must remain free to practice their profession in the performance of their work at the College without interference or harassment because of their opinions or beliefs. Toward that objective, the parties pledge to use their respective offices, authority, and influence to maintain an atmosphere of collegiality and academic freedom which must prevail at the College.

2.7 The purpose, as expressed in this Article, being a philosophical agreement between both parties, is not subject to the Grievance Procedure (Article XIV).

Probationary appointments leading to tenure shall include full-time appointments at the rank of Assistant Professor, Associate Professor, Professor or Research Faculty. Individuals holding these appointments shall be eligible for promotion.

Appointments not leading to tenure shall include all appointments to auxiliary ranks (Visiting, Artist-in-Residence, Departmental Assistant, Library Assistant, Extension Agent, or Half-time), appointments to the rank of Counselor (Ranks I-II), Librarians I-II, and Instructor, and appointments to the academic ranks which are either substitute appointments for a faculty member on sabbatical or leave or appointments predominantly funded by outside grants and contingent upon the continuing availability of such external funding.

Appointments with continuous tenure shall include appointments to academic rank after the completion of a probationary period and the award of tenure. Faculty members holding appointments with continuous tenure may only be dismissed for cause or terminated as set forth in Section 10 of this Agreement.

7.2.2 Unit members not eligible for Tenure will be considered for a term contract on an annual basis.

7.2.3 Conditions

1. The particular kind of appointment shall be stipulated in the appointment document. All probationary appointments shall be for a definite term, usually one (1) year or less. The Board, however, reserves the right, solely at its discretion, to offer multi-year appointments of up to three (3) years length to highly qualified candidates for appointments or probationary reappointments.

2. Unit members holding probationary or non-tenure track appointments shall be informed each year in writing of reappointment, if such appointment is renewed.

3. The College shall normally notify all unit members of the terms and conditions of their appointment for the following academic or fiscal year on or before April 1.

4. Most appointments shall be for the academic year and payable over a ten-month or twelve-month period, at the unit member's option. Certain appointments, however, may carry responsibilities through the summer months and such appointments shall be on a twelve-month basis at a commensurate salary. Such twelve-month appointments shall be limited and shall be consistent with the fiscal year from July 1 to June 30.

5. Any appointments made and commencing during the first semester of the academic year or the first six (6) months of the fiscal year shall be counted for the purpose of entitlement to sabbatical leave or leave of absence, salary increments, and as part of the probationary period of service as beginning with that academic or fiscal year, as the case may be. Any appointments made and commencing during the second semester of the academic year or the second half of the fiscal year, shall be counted for the purpose of entitlement to sabbatical leave or leave of absence, salary increments, and as part of the probationary period of service as commencing with the next full academic of fiscal year, as the case may be.

7.3 Qualifications for Appointment

1. The following professional qualifications shall be considered minimal for initial appointments and promotions to rank:

Professor: To be eligible for the rank of Professor, a faculty member must have a record of outstanding performance normally involving both teaching and research or creativity or performance in the arts, or recognized professional contributions in his field. The faculty member must hold the earned doctorate from a regionally accredited institution in a discipline appropriate to the assigned academic department and have at least ten (10) years of effective and relevant experience directly related to his anticipated responsibilities.

Associate Professor: To be eligible for the rank of Associate Professor, a faculty member must have a record of effective performance usually involving both teaching and research or creativity or performance in the arts, or recognized professional contributions in his field. The faculty member must possess strong potential for further development as a teacher and/or as a scholar. The faculty member must hold the earned doctorate from a regionally accredited institution in a discipline appropriate to the assigned academic department and have at least five (5) years of effective and relevant experience directly related to his anticipated responsibilities.

Assistant Professor: To be eligible for the rank of Assistant Professor, a faculty member must possess strong potential for development as a teacher and/or scholar. The faculty member must hold an earned master's degree from a regionally accredited institution and have earned a minimum of twenty-four (24) graduate credits beyond the master's degree toward the doctorate from a regionally accredited institution in a discipline appropriate to the assigned academic department. It is normally expected that the person appointed to this rank shall be enrolled in a doctoral program appropriate to the discipline. The faculty member shall normally be expected to have at least three (3) years of effective and relevant experience related to his anticipated responsibility.

Instructor: To be eligible for the rank of Instructor, a faculty member must hold a master's degree from a regionally accredited institution in a discipline appropriate to the assigned academic department and show definite promise of teaching and/or research ability.

Half-time Appointment: A half-time appointment to one of the academic ranks requires the same professional qualifications as appointment to a corresponding full-time faculty rank. All half-time appointments shall be for a specific term and in accordance with the selection procedures set forth in Article 7.4. Half-time appointees shall be expected to carry a half work load, including two (2) courses or their equivalent, service on committees, advisement, and other such duties as performed by full-time faculty. Half-time faculty members shall be entitled to all the rights and privileges of full-time faculty including the right to a full vote in their respective Department. Half-time faculty shall receive all fringe benefits to which they are entitled.

2. Auxiliary Ranks

a. Visiting Ranks: A visiting appointment of a highly qualified individual with the understanding that such appointment shall not exceed three years. Persons holding visiting rank shall be considered voting members of the faculty and subject to all provisions of this Agreement except for promotion, tenure, and non-reappointment.

b. Artist-in-Residence: This rank shall designate an appointment of an individual who has attained significant national recognition as an artist and who can provide both the College and the appropriate department with specific expertise as both an artist and teacher. The accomplishments of an Artist-in-Residence shall usually be in the traditional fields of Art, Music, Letters, Theatre, or Dance. Persons holding such an appointment shall be considered voting members of the faculty and are subject to all provisions of this Agreement except for promotion, tenure, and non-reappointment.

c. Extension Agent: This auxiliary rank is available only from the Department of Agriculture and Natural Resources. Eligibility and qualifications for such appointments are established by the department based upon program considerations within the department. Extension agents do not hold academic rank.

3. In certain disciplines, faculty members may be appointed whose primary responsibilities lie in research rather than teaching. Such faculty members shall be ranked as follows: Research Professor; Research Associate Professor; Research Assistant Professor; and Research Instructor.

Such ranks shall be the equivalent, respectively, of Professor, Associate Professor, Assistant Professor, and Instructor, and the same professional qualifications shall be considered minimal for initial appointments and promotions to rank; however, more emphasis shall be placed upon a faculty member's research abilities and publications than teaching experience when considering such faculty member for initial appointment, promotion, tenure, or reappointment.

3. Professional Librarians

Professional Librarians do not hold faculty rank and status nor are eligible for tenure. The librarian's academic preparation for an appointment is established on the basis of the appropriate professional degree. The basic quality which must be evident for initial appointment is the ability to perform at a high professional level in areas which contribute to the educational and research mission of the College such as: reference service, collection development, bibliographic organization and control. Librarians shall have a background in computer and information technology.

The following professional qualifications shall be considered as minimal for initial appointment or promotion among professional librarians.

Librarian II: To be eligible for the rank of Librarian II, a professional librarian must have a record of substantial professional contributions to the Library and to the institution, as well as attainment of a high level in bibliographic activities, research, or recognized professional contributions in his field.

It is normally expected that the librarian appointed to this rank shall have earned a minimum of twenty-four (24) graduate credits beyond the master's degree from an ALA accredited program or regionally accredited institution, and have at least eleven (11) years of effective and relevant experience directly related to his anticipated responsibilities of which five (5) years must have been spent at Delaware State College.

Librarian I: To be eligible for the rank of Librarian I, a professional librarian must hold the master's degree from an ALA accredited institution in library science or information science and show definite promise of successful performance as a professional librarian.

Librarians who held faculty status prior to July 1, 1986 shall not be held to the provisions of Promotion and Tenure under Article 8.4.7 (reference Appendices C and D of the 1983 Agreement).

4. Counselors

Counselors do not hold academic or "voting" rank nor are counselors eligible for tenure. The following professional qualifications shall be considered as minimal for initial appointment or promotion among counselors. Appointment and/or promotion to these levels are not automatic. They shall be based on merit, not solely years of service, nor are the faculty salary minima applicable.

Counselor II: To be eligible for the rank of Counselor II, a professional counselor must have a record of outstanding achievement in the field of counseling and have made recognized professional contributions in his field. He must also have a record of substantial professional contributions to a Counseling Center or its equivalent, and to an institution of higher education. The Counselor must hold the earned doctorate degree from a regionally accredited institution in a discipline appropriate to and complementing counseling, and have at least ten (10) years of effective and relevant experience directly related to his anticipated responsibilities.

Counselor I: To be eligible for the rank of Counselor I, a professional counselor must hold the master's degree in counseling from a regionally accredited institution and show definite promise of successful performance as a counselor.

5. Departmental and Library Assistants

To be eligible for appointment as a Departmental or Library Assistant, a person must possess at least a Bachelor's degree from a regionally accredited institution in a discipline appropriate to the assigned academic department or library and have special skills related to their assignment. Department/Library Assistants are not voting faculty members.

7.4 Search Procedures

7.4.1 The personnel needs of each department shall be reviewed by the department at least once a year. The review shall take into consideration projected enrollments in the department, curriculum requirements and the number of sections needed. Normally, such review and requests shall occur in conjunction with departmental budget requests.

7.4.2 Once the appropriate Vice President certifies that a position is to be filled, the Vice President will authorize a candidate search by the Department. The search shall conform with the Affirmative Action Plan of the College provided the Affirmative Action Plan does not conflict with Article 7 of this Agreement. The Vice President and the Department shall mutually agree on a timetable for the receipt of the Department recommendation(s).

7.4.3 Once the Vice President and Dean of Academic Affairs 'certifies' that a faculty position is to be filled, the department personnel committee shall (a) determine the basic qualifications for each position to be filled including academic credentials and experience in the appropriate discipline; (b) advertise the position in appropriate professional journals and local and regional newspapers; (c) screen the applicants; and (d) select candidates to be invited for a personal interview, subject to budget limitations.

7.4.4 The appropriate Assistant Academic Dean shall serve as an ex-officio member of the Department Committee.

7.4.5 When candidates are invited to the campus, department members shall be informed and arrangements shall be made for the candidate to meet as many department members as possible. Candidates shall be interviewed by the personnel committee members, the Chairman of the department or his designee, the appropriate Vice President or his designee, and if possible, the President of the College or his designee. Only under rare and exceptional circumstances should personal interviews with prospective faculty members be omitted.

7.4.6 In the event that the search is for a department chairman, the appropriate Vice President may appoint faculty members from other departments to serve on the personnel committee. Normally, members of the affected department shall constitute a majority of the personnel committee. Under no circumstances shall the personal interview process be omitted in the search for a department chairman.

7.4.7 During the interviews and in arriving at a final recommendation, those responsible for recommending the appointment of new faculty members shall take into consideration the Judgmental Criteria used for promotion and tenure as set forth in Article VIII of this document. The question of teaching effectiveness shall be one of the principal factors in deciding faculty appointments, except for appointments to ranks or disciplines that do not involve teaching. In any case, reasonable efforts shall be made to determine a candidate's teaching or professional effectiveness.

7.4.8 After interviews have been completed, the personnel committee shall poll members of the department who participated in the interviews and others who have reviewed the candidates' credentials. The Department Chairman shall then forward the recommendations of the department, along with his own, if different, to the appropriate Vice President and to members of the department personnel committee. The recommendations of the department shall include the credentials of the preferred candidate or candidates and other supporting documents, reasons supporting the choice of that candidate(s), and recommended salary range and rank.

7.4.9 The rank to be offered the candidate shall, in most cases, be consistent with the professional qualifications set forth under this Article. Under rare and exceptional circumstances, however, outstanding creative achievement, exceptional scholarly and professional attainments, and national recognition by academia, industry, and/or professional societies may, in the absence of the appropriate academic degree and/or years of experience, be evaluated for equivalence by the department in its recommendation of rank to be offered. Such exceptions shall be fully documented.

7.4.10 The appropriate Vice President shall review the department recommendation and shall support a well-documented recommendation except for substantial reasons which shall not be arbitrary. If the appropriate Vice President feels compelled to depart in any way from the department recommendations and if the department requests it, he shall meet with the department to discuss his decision. If the department and the appropriate Vice President cannot come to agreement on a suitable candidate, both parties may appeal to the President of the College.

7.4.11 If the appointment is approved by the appropriate Vice President he shall recommend the appointment to the President of the College, who, if he approves, shall recommend the appointment to the Board of Trustees. Normally, the President of the College and the Board shall approve a well-documented recommendation which has the support of the department and the appropriate Vice President. If approval is withheld, detailed reasons shall be given in writing to the personnel committee within fifteen (15) calendar days of the decision.

7.4.12 Upon approval of the Board of Trustees, a candidate shall be notified of an appointment by the President of the College. Such notice shall be consistent with the terms of this Agreement.

7.4.13 A candidate shall be given a specified amount of time, usually no more than thirty (30) calendar days, in which to accept or reject the offer of appointment.

7.4.14 Prior to assuming faculty responsibilities, a new unit member shall be given a copy of this Agreement, the Faculty Handbook, and any other documents pertinent to his role as a unit member.

7.4.15 If a new department is being created, the Vice President and Dean of Academic Affairs shall appoint an ad hoc search committee consisting of five (5) members of the faculty from related or other disciplines to act in lieu of the department personnel committee. The ad hoc committee shall follow the procedures set forth above.

7.4.16 The above procedures shall also be followed in the appointment of auxiliary faculty and shall also apply to adjunct or part-time appointments of individuals to teach credit courses in the Division of Continuing Education. Nominees for such adjunct appointments may come from many sources including but not limited to the department faculty, the department chairman, the Assistant Academic Dean, the Director of Continuing Education, and the Vice President and Dean of Academic Affairs. However, such nominees shall be considered by the chairman and members of the department before a department recommendation is forwarded to the Vice President and Dean of Academic Affairs.

7.4.17 The parties hereto recognize that resignation beyond the usual dates of notification, withdrawals of candidates prior to the start of classes, and the need to appoint new unit members because of unforeseen enrollments induce hardships for both the college and the department. In such cases, the procedures described herein may be modified according to the circumstances. In any event, members of the department and the department chairman or his designee shall either meet with candidates and/or review credentials; and the department shall be responsible for conveying a recommendation to the appropriate Vice President as promptly as circumstances permit.

7.4.18 Appointments to the ranks of professional librarians shall follow the procedures set forth in this Article, except that the Director of the Library-Learning Center shall be included in the procedure and shall receive the recommendation of the department and forward such recommendation along with his own to the Vice President and Dean of Academic Affairs.

7.4.19 Appointments as professional counselors shall follow the procedures set forth in this Article, except that the Vice President for Student Affairs shall act in the place of the Vice President and Dean of Academic Affairs.

7.5 Reappointment

7.5.1 Initial tenure track faculty appointments shall be probationary and shall be on a year-to-year basis until either tenure is achieved or a terminal contract is offered or non-reappointment is recommended. Unless limited by specific terms of an individual contract, appointments not leading to tenure shall also be on a year-to-year basis until a terminal contract is offered or non-reappointment is recommended.

7.5.2 Probationary faculty members and other unit members being considered for reappointment shall be evaluated according to the criteria set forth in Article VIII of this Contract.

7.5.3 The appropriate Vice President shall review the recommendation of the Department Chairman, Academic Director or Head Librarian and support a favorable recommendation except for substantial reasons which shall not be arbitrary. In the event the appropriate Vice President recommends for non-reappointment, he shall meet within a reasonable time to discuss reasons with those responsible for the favorable recommendation. If the agreement is not reached on reappointment of a probationary unit member, the Vice President will forward his recommendation to the President of the College and the Unit Member may appeal the recommendation to the President.

7.5.4 If reappointment is approved by the appropriate Vice President, he shall recommend the reappointment to the President of the College, who if he approves, shall recommend reappointment to the Board of Trustees. The appropriate Vice President and the President of the College shall normally recommend reappointment based upon the favorable recommendation of the majority of those in the department responsible for evaluating a probationary unit member.

7.5.5 The President shall submit his recommendation(s) for reappointment to the Board of Trustees. The recommendations of the Vice President and President shall normally follow the recommendations of the majority of those in the departments responsible for evaluating probationary unit members.

ARTICLE VIII

PROMOTION AND TENURE

8.1 Basic Principles Underlying the Promotion and Tenure Process

8.1.1 Processes and bases for promotion and tenure must remain flexible to allow for individual uniqueness and creativity in performance. Criteria must not attempt to make all unit members perform alike. Counselors and Librarians are ineligible for tenure.

8.1.2 Even though value judgments by those responsible for making promotion and tenure decisions will always play a role in determining who is promoted or granted tenure, documented evidence consistent with the mission statement of the College must be used to support the decisions.

8.1.3 Procedures which are established should be aimed at assisting unit members to perform at levels deemed worthy of promotion and tenure, consistent with the mission statement of the college.

8.1.4 Evidence concerning a unit member's qualifications for promotion and tenure may be granted from many sources including the unit member himself, his department chairman, any of his other colleagues in the college, his students and former students, or by persons outside the college whenever appropriate who are familiar with his work.

8.1.5 The Promotion and Tenure Committee's bases for decisions will be delineated in written form. In the event of denial of promotion or tenure, the unsuccessful candidate will be informed of the manner in which he has failed to meet the criteria.

8.1.6 Promotion and Tenure are not automatic. Individuals once promoted or tenured are expected to continue to make contributions in the areas of professional competence, professional recognition, and professional service.

8.2 Definitions

8.2.1 a. Faculty:

A ranked faculty member for purposes of this Article is a full-time person who holds the rank or its equivalent as set forth in this Agreement of Instructor, Assistant Professor, Associate Professor, or Professor in one of the recognized academic departments of the College or the Learning Skills Center and whose primary responsibilities are to engage in teaching and research. Only faculty members as defined herein are eligible for promotion; and, only ranked faculty at the level of Assistant Professor and above are eligible for tenure. Auxiliary faculty as set forth in this Agreement are not eligible for consideration. Faculty members who transfer into administrative positions shall retain their rank and tenure.

b. Counselors and Librarians

Counselors and Librarians are eligible for promotion to the ranks specified in this Agreement.

8.2.2 Promotion: Unit members of Delaware State College are distributed among the ranks set forth in this Agreement. Promotion is the advancement of a unit member from one of those academic ranks to the next higher.

8.2.3 Tenure: Academic tenure defines the character of faculty appointments at Delaware State College as continuous until resignation, retirement, termination, or dismissal for just cause.

8.2.4 Promotion and Tenure Committee

Membership: Five tenured faculty members, three full professors and two associate professors, shall be elected by secret ballot by the Faculty at its May meeting. In the event of a vacancy, the faculty shall elect a replacement. Each member of the Committee will serve two years. Three members will be elected one year, two members in alternate years. Faculty members from the same department shall not serve simultaneously; the membership of the Committee should represent a variety of disciplines. Members of the Committee shall evaluate unit members only in their role as members of the Committee; for this reason, a Committee member must dismiss himself from the Committee when an individual is being considered that the Committee member has evaluated earlier in the promotion and/or tenure process or when the Committee member has a vested interest in the individual under consideration.

Since Chairmen of departments are obligated to make recommendations concerning promotion and tenure of members of departments, it is recommended that Chairmen refrain from serving on the Committee unless they anticipate no situation in which they would have to absent themselves from the Committee. A Department Chairman, however, may be requested by the Committee to serve as an ex-officio nonvoting participant of the Committee in matters involving his department. No unit member who is being considered for promotion shall serve on the Promotion and Tenure Committee.

Duties: The Promotion and Tenure Committee shall receive all submitted material and the evaluation and/or recommendations of departmental colleagues and chairmen. Summary student evaluations shall be submitted as part of the evaluation materials.

The Committee must consider carefully the qualifying criteria of each applicant and evaluate each applicant by fairly applying the judgmental criteria. Committee members must make themselves familiar with the performance and attainment of applicants. The Committee shall have the authority to question those who have made evaluations, question applicants, observe applicants, and request any further information deemed necessary to reach a fair decision.

The Committee's primary responsibility is the evaluation of candidates for promotion or tenure. The recommendations of the Promotion and Tenure Committee shall be forwarded to the appropriate Vice President.

8.3 Policies Governing Promotion

8.3.1 Promotion shall be based on merit, not solely on years of service.

8.3.2 Merit can be fairly assessed only after a unit member has spent a reasonable period of time in a particular rank, as defined in 8.3.6.

8.3.3 As stated previously, promotion is not automatic; it is the recognition that a unit member not only meets the minimum standards for higher rank as defined in the section on Initial Appointments, but has also demonstrated significant achievements in the areas of professional competence, professional recognition, and professional service.

8.3.4 Two categories shall be considered in promotion decisions: Qualifying and Judgmental.

8.3.5 Qualifying Criteria: To be eligible for consideration for promotion, a unit member must meet the minimal professional qualifications set forth in this Agreement in Section 7.3.

8.3.6 Secondly, a unit member must have a certain number of years in rank at Delaware State College:

Length of Service in Rank: Length of service in rank refers to the number of years that a unit member has spent in his present rank. To be eligible for promotion to Assistant Professor, a faculty member shall have been an Instructor for at least one year. To be eligible for promotion to Associate Professor, a faculty member shall have been an Assistant Professor for at least three years. To be eligible for promotion to Professor, a faculty member shall have been an Associate Professor for at least four years. To be eligible for promotion to Librarian II or Counselor II, a unit member must have been Librarian I or Counselor I for a minimum of five (5) years.

Instructors may be considered for promotion to Assistant Professor during their first year in rank. Assistant Professors are eligible for consideration for promotion to Associate Professor during their third year in rank. Associate Professors are eligible for consideration for promotion to Professor during their fourth year in rank.

Under rare and exceptional circumstances, however, outstanding creative achievement, exceptional scholarly and professional attainments, and national recognition by academia, industry, and/or professional societies may, in the absence of the appropriate academic degree and/or years of experience, be evaluated for equivalency by the Promotion and Tenure Committee. The above criteria are not intended to be restrictive and deny the exceptional and outstanding unit member the right to advance to higher rank. Certain conditions for justifiable exception to the qualifying criteria for promotion must be met:

a. In rare cases where a unit member does not meet the requirements for a specific rank as specified above, and the unit member believes there are grounds for waiving these requirements or considering others, a request for an exception to these requirements may be made.

b. This request should delineate the conditions which are deemed exceptional and the justification supporting approval of the request. The request should be accompanied by appropriate documented evidence which establishes the nature of the exception and how it relates to the individual's assignment.

c. The request for exception should be directed to the department chairman by the individual requesting the exception. This request is then processed in the manner established for all recommendations for promotion.

8.3.8 Approval of exceptions to the qualifying criteria shall not establish precedents. Each exception shall be judged on its own merits.

8.4 Policies Governing Tenure

8.4.1 Until tenure is granted, an appointment to faculty rank leading to tenure is considered probationary.

8.4.2 Academic tenure means an appointment that can be terminated only for specifically stated causes as set forth in Article X. It should be granted only to persons who have demonstrated by passing successfully through a period of probation that they are fully qualified teachers or researchers. Tenure is a privilege, not a right. It is the recognition that a faculty member has made some worthy contribution to the College and the profession in terms of professional competence, professional recognition, and professional service.

8.4.3 Tenure is thus based upon merit, not solely years in service. Merit can be fairly assessed only after a faculty member has spent some time as a member of the Delaware State College faculty.

8.4.4 Two categories shall be considered in tenure decisions: Qualifying and Judgmental.

8.4.5 Qualifying Criteria: To be eligible for consideration for tenure, a faculty member must hold the rank or the equivalent rank of Assistant Professor, Associate Professor, or Professor. A faculty member may request initial consideration for tenure as follows: (a) during the fifth year of full-time service for persons holding the rank of Assistant Professor; (b) during the fourth year of full-time service for persons holding the rank of Associate Professor; and (c) during the third year of full-time service for persons holding the rank of Professor. If a faculty member does not achieve tenure during the first consideration period he shall be considered again two (2) years later or if a faculty member chooses not to be considered during the initial period, he shall be considered two (2) years later. Thus faculty members shall be given final consideration for tenure as follows: (a) during the seventh year of full-time service for persons holding the rank of Assistant Professor; (b) during the sixth year of full-time service for persons holding the rank of Associate Professor; and (c) during the fifth year of full-time service for persons holding the rank of Professor. If tenure is not achieved during the final period of consideration, the faculty member shall be given a terminal contract for the next academic year.

8.4.6 Years of service at Delaware State College shall count as full academic years of service; part-time service, leaves of absence, and appointments beginning the second semester of the academic year shall not count toward tenure. In the event that a sabbatical is granted before tenure is achieved, such a sabbatical year or semester shall count as a service period.

8.4.7 Faculty members holding the rank of Instructor cannot achieve tenure. All instructors should plan their professional growth so as to gain promotion to Assistant Professor within six (6) years after their initial appointment. These six (6) years of full-time service may not necessarily be consecutive if an approved leave of absence is granted and up to three (3) of those years served as an Instructor may be counted as service time in determining an Assistant Professor's eligibility; in the case of Instructors who have held that rank prior to the effective date of this Agreement, up to four (4) years as an Instructor may be counted as service time. Instructors who do not gain a promotion by the end of the six (6) years will be given a terminal contract for the seventh year.

Instructors hired prior to September 1, 1973 shall not be subject to the conditions of non-reappointment as outlined in Article 10.3 of this Agreement. The appropriate Vice President will meet with each affected individual and their chair to develop an individual development plan which will provide direction to assist the individual in obtaining promotion to the next rank.

Unit members appointed to the rank of Instructor after July 1, 1973 and prior to July 1, 1981 shall be granted a grace period of five years in order to obtain a promotion. Members of this group not awarded a promotion by April 1, 1991 shall receive a terminal appointment for the 1991-92 academic year. The Parties agree that this provision is a final agreement concerning this group of

Instructors and there will not be any further negotiations on this subject in any successor agreement.

8.4.8 In the event that a ranked faculty member resigns the position and then returns to Delaware State College some years later, the previous years of service shall not apply toward tenure.

8.4.9 In the event that a faculty member holding academic rank and serving a probationary appointment not leading to tenure receives a probationary appointment leading to tenure, up to three (3) years of full-time service may be counted toward tenure.

8.5 Judgmental Criteria for Promotion and Tenure

8.5.1 Meeting the qualifying criteria for promotion or tenure, or requesting an exception to the qualifying criteria for promotion and being granted that exception, establishes eligibility, but does not assure either immediate or eventual promotion or tenure.

8.5.2 Departmental Chairman, Departmental Colleagues, the Promotion and Tenure Committee and the appropriate Vice President shall use the following judgmental criteria in evaluating a unit member for promotion, tenure, or reappointment:

a. Professional Competence: Competence in teaching is an absolute necessity for promotion or tenure of those unit members whose primary responsibility is teaching. Insofar as they pertain to teaching competence, efforts by the faculty member at curriculum development and improvement, teaching innovations, continuing self-education, in-class observations by others, and other forms of evaluation shall be used as evidence of a faculty member's teaching competence. Competence in the performance of other professional duties appropriate to certain disciplines, research, library work, counseling, etc., is correspondingly an absolute necessity for the promotion of nonteaching unit members whose primary responsibilities do not include teaching.

b. Professional Recognition: Professional recognition comes in many forms and may vary with the unit member's discipline. In almost all fields, research, publication, and evidence of creative work are considered valuable. Consequently, the publication of scholarly books, monographs, and articles in publications recognized by and within the discipline shall be considered. In the areas of literature and the fine or performing arts, creative artistic production is also a primary vehicle for achieving professional recognition. In many fields, external consultation, work with colleagues and advanced students on research and scholarly projects, and the stimulation of research projects or grants are appropriate bases for professional recognition. In addition, holding office in national and state professional associations and contributing papers or services to such organizations are worthy of professional recognition. For promotion to full professor, a scholarly publication other than the dissertation shall be presented.

c. Professional Service: Professionally relevant activities directed toward service to the department, the college, and the community shall contribute to favorable consideration for promotion or tenure. Unit members shall demonstrate dependability and meaningful participation as a member of college committees, and shall have made significant contributions to the department, the college, and the community.

8.5.3 Additional Judgmental Criteria: Additional judgmental criteria may be developed by the individual departments as they apply to that discipline. Such additional criteria may be submitted as part of the recommendations of the Department Chairman to be considered by the Promotion and Tenure Committee.

8.5.4 Application of Judgmental Criteria: In considering candidates for tenure, professional competence, professional recognition, and professional service are all important. In applying these criteria professional competence shall be given greater weight than the other judgmental criteria. While the above judgmental criteria are essentially the same as those considered for promotion, the Promotion and Tenure Committee is expected to apply the judgmental criteria more rigorously in considering tenure. Unlike promotion, tenure is a permanent commitment on the part of the Faculty and the College. Faculty members granted tenure must be deemed worthy of permanent appointment.

8.6 Procedures for Promotion or Tenure

8.6.1 The responsibility for initiating consideration for promotion or early tenure rests with the unit member. For unit members who choose not to be considered for tenure during the initial period or faculty members who did not achieve tenure during the initial period, the responsibility for the initiating consideration for a final tenure decision rests with the Department Chairman who must make an appropriate recommendation at that time. A unit member is still responsible for reviewing his personnel file, supplying the necessary supporting documents, and seeing that the proper procedures are followed.

8.6.2 In any case, the Vice President and Dean of Academic Affairs shall notify all faculty members who are serving the last year of a probationary period that they will be considered or reconsidered for tenure; a list of such faculty members shall be sent to the Chairman of the departments involved and to the Chairman of the Promotion and Tenure Committee.

8.6.3 The unit member has the obligation to become fully aware of the qualifying criteria for promotion or tenure.

8.6.4 The unit member shall meet with the Department Chairman, Academic Director or Head Librarian to review the qualifying criteria for promotion or tenure and to ascertain whether the criteria have been met or if the Chairman, Academic Director, or Head Librarian is willing to support an exception to the criteria for promotion. Following such a meeting, the unit member shall make application by letter to the Chairman of the Promotion and Tenure Committee for consideration for promotion or tenure. In the case of a faculty member who is to be considered for a final tenure decision, the Chair shall notify the faculty member that he or she will be considered.

8.6.5 Once the application for promotion or tenure has been submitted, the unit member has the responsibility to review his personnel file in order to ascertain that credentials, evaluations, and other documents in the file are in order. The unit member may choose to respond to comments in the file if he has not done so previously. The candidate for promotion or tenure shall also prepare an updated vita and documents supporting claims of publication or other accomplishments for inclusion in the personnel file. However, such review and updating should be an ongoing process, whether or not a unit member is being considered for promotion or tenure.

8.6.6 The Chairman, Academic Director or Head Librarian, after consultation with the unit member and a review of supporting documents, or copies thereof, and after consultation with other members of the department who hold higher rank than the candidate for promotion or tenure, shall submit such recommendations in writing to the Promotion and Tenure Committee.

In accordance with the provisions concerning department governance in Article XIX of this Agreement, the unit members of the department shall establish a Departmental Personnel Committee of tenured, faculty members to make recommendations concerning appointment, reappointment, promotion, and tenure of members of the department and to conduct peer evaluations for the above purposes. Counselors and Librarians operate as a committee of the whole. Such a committee shall serve as the department's means of establishing peer review procedures. All recommendations shall be submitted in writing.

In the event that a department lacks tenured, faculty members, the departmental committee shall be composed of other faculty members of the department in order of seniority.

8.6.7 In addition to the Departmental Personnel Committee's recommendations, Departmental colleagues who have chosen to evaluate a candidate or who have been requested by the Chairman, Academic Director or Head Librarian to evaluate a candidate or other colleagues who may have been requested to evaluate the candidate shall submit their signed recommendations to the Chairman, Academic Director or Head Librarian who shall forward the complete dossier to the Chair of the Promotion and Tenure Committee.

8.6.8 The Chairperson of the Promotion and Tenure Committee shall notify all candidates for promotion or tenure that the recommendations have reached his office and shall also notify candidates whose files, when they reach the office, contain negative recommendations. Such candidates shall have seven (7) calendar days in which to examine the file and submit any written comments or additional material.

8.6.9 The Promotion and Tenure Committee shall then review the personnel file, evaluations, recommendations, and all supporting documents in accordance with its responsibilities.

8.6.10 The Chairman of the Promotion and Tenure Committee shall notify all candidates of the Committee's decision at least one week before the Committee makes its report to the appropriate Vice President on February 15. In the event of a negative recommendation, reasons shall be stated in writing and in detail.

8.6.11 The appropriate Vice President shall review the recommendations and the personnel file of candidates and all supporting documents and make appropriate comments and recommendations. A recommendation for non-promotion or denial of tenure requires written comment.

8.6.12 If a candidate wishes to appeal the decision of the Promotion and Tenure Committee, said decision shall be reviewed by an Ad Hoc Appeals Committee, as set forth in Section 8.9 below.

8.6.13 The recommendations of the Promotion and Tenure Committee concerning those candidates not subject to review by the Ad Hoc Appeals Committee shall be transmitted by the appropriate Vice President to the President of the College no later than February 15.

8.6.14 The President of the College shall review the recommendations of the Ad Hoc Appeals Committee and, if necessary, all supporting documents, and submit the report to the Educational Policy Committee of the Board of Trustees with his comments and recommendations.

8.6.15 The Educational Policy Committee shall review the various recommendations and, if necessary, all supporting documents and render a decision concerning the candidate(s) based on the documents and recommendations submitted.

8.6.16 Normally, the recommendations of the Educational Policy Committee shall be considered at the Board's March meeting, or in the case of recommendations from the Ad Hoc Appeals Committee, at a later meeting.

Within five (5) working days following the meeting of the Board, the President shall notify the candidate, the President of the AAUP, and the appropriate Vice President of the Board's action.

8.6.18 Final approval rests with the Board of Trustees. The recommendations of the Faculty Senate or Ad Hoc Appeals Committee shall be given serious consideration in the final decision. In the event that the Board does not concur with the recommendation of the Faculty Senate or the Ad Hoc Appeals Committee, it shall instruct the appropriate Vice President to meet with the candidate to explain the reasons. Written reasons shall be provided to the candidate upon request.

8.7 Target Dates for Promotion or Tenure

8.7.1 By September 30, the Vice President and Dean of Academic Affairs shall notify all faculty members and their respective Chairman that they are serving the last year of a probationary period and must be considered for tenure.

8.7.2 By October 15, unit members applying for promotion or desiring to be considered for early tenure shall notify, in writing, the Department Chairperson, Academic Director and Head Librarian of their request for an evaluation.

8.7.3 By November 15, the Chairman of the Department, Academic Director and Head Librarian and the Departmental Personnel Committee shall submit all of the recommendations to the Chairperson of the Promotion and Tenure Committee of all individuals to be evaluated for tenure or promotion.

8.7.4 By December 1, the Chairperson of the Promotion and Tenure Committee shall have notified all candidates that recommendations have reached his office and shall submit the recommendations and supporting documents to the Promotion and Tenure Committee.

8.7.5 The Chairman of the Promotion and Tenure Committee shall notify candidates of the Committee's decision no later than February 8. The Chairman of the Promotion and Tenure Committee shall submit the committee's recommendation to the appropriate Vice President after the candidate has been informed, but no later than February 15.

8.7.6 If an appeal is made, the Appeals Committee has three (3) weeks to submit its report to the Chairman of the Faculty Senate and the appropriate Vice President.

8.7.7 The Board shall normally consider all promotion and tenure decisions at its March meeting.

8.7.8 Within five (5) working days following the decision of the Board, the President of the College shall notify the appropriate people of the decision.

8.7.9 It is agreed that unit members who are appealing a decision might not receive a contract on the traditional date of April 1; however, a decision must be made, a contract issued, or an explanation given, no later than the end of the academic year.

8.8 General Provisions

8.8.1 All materials used in the promotion or tenure process shall become part of the unit member's personnel file and subject to procedures set forth in this Agreement regarding personnel files.

8.8.2 In the case of Chairmen being considered for promotion or tenure, the appropriate Vice President shall assume the role of Departmental Chairman as set forth under procedures for promotion and tenure.

8.8.3 At any step of the procedures for promotion or tenure, those charged with the responsibility of evaluating and rendering judgment on a candidate may seek a clarification of any materials submitted. However, the candidate will not be permitted to submit additional information after the review process has started.

8.8.4 Except in the case of faculty members who are being reviewed for tenure for the final time, a candidate may, at any time during the promotion and tenure procedure, withdraw his application without prejudice.

8.8.5 Non-promotion is not necessarily a negative response to a candidate's performance and does not affect consideration at a later time. Non-promotion is a statement that, in the eyes of those who have evaluated the unit member, a candidate for promotion has not met the criteria, whether qualifying or judgmental, for promotion. Those who have made recommendations concerning a unit member, especially Chairmen, Academic Directors and the Head Librarian have the obligation to assist the unit member in upgrading and improvement in order to meet the criteria as soon as possible.

8.8.6 Failure to achieve tenure during the initial consideration period does not necessarily mean that a faculty member will also be denied tenure when reconsidered. Refusal to grant tenure during the initial evaluation is an indication that the faculty member is in need of improvement in the areas of professional competence, professional recognition, or professional service. Those who have made recommendations concerning a faculty member, especially department chairmen, have the obligation to assist the faculty member in upgrading and improvement, in order to meet the criteria for tenure.

8.8.7 Unit members who choose to appeal a decision of the Promotion and Tenure Committee or the Board may not invoke the Grievance Procedure as set forth in this Agreement except on grounds that procedures were not followed.

8.8.8 Promotion or tenure for a ten-month appointment shall take effect on the first day of the academic year following the granting of promotion or tenure; promotion or tenure for a twelve month appointment shall take effect on the first day of the fiscal year following the granting of promotion or tenure.

8.9 Appeals

8.9.1 Appeals of Promotion and Tenure Committee

1. In the event that a candidate who has not been recommended for promotion or tenure by the Promotion and Tenure Committee appeals that decision, he may submit his appeal to the appropriate Vice President in writing, within five (5) working days following the notification of the action of the Promotion and Tenure Committee. Appeals shall not be made on frivolous grounds nor shall they be based upon past practices or policies. Appeals shall be based on the specific grounds for denial.

2. If a candidate appeals the decision of the Promotion and Tenure Committee and an Ad Hoc Committee shall be formed. The Chairman of the Faculty Senate and the appropriate Vice President shall jointly appoint an Ad Hoc Appeals Committee to review the procedures and decisions made regarding a particular candidate(s). The Ad Hoc Appeals Committee shall be appointed, if needed, within three (3) working days following the appeal; it shall consist of no more than five (5) and no fewer than three (3) faculty members who hold tenure. No member of the Ad Hoc Appeals Committee shall have participated in evaluations or recommendations made concerning the particular candidate(s), or shall have served on the Promotion and Tenure Committee or the Ad Hoc Appeals Committee within the three (3) previous years.

3. The Ad Hoc Appeals Committee is charged with the responsibility of reviewing the decision(s) made concerning the particular candidate(s) and all supporting documents in order to determine whether the decision was arrived at fairly and equitably based upon the criteria and procedures for promotion and tenure. The Ad Hoc Appeals Committee shall have the same authority as the Promotion and Tenure Committee to review, to seek further information, and to interview those who participated in the previous decision(s) or those who are appealing. Candidate(s) appealing the decision(s) shall not be permitted to submit any evidence in support of their appeal unless such evidence was submitted to and considered by the Promotion and Tenure Committee or unless such evidence relates to matters occurring subsequent to the rendering of the initial decision.

4. No later than three (3) weeks following the appointment of the Ad Hoc Appeals Committee, the Committee shall report its decision(s) to the appropriate Vice President and the Chairman of the Faculty Senate. Copies of the decision(s) shall be sent to the Chairman of the Promotion and Tenure Committee and the concerned unit member(s).

5. The basis for any decision which runs counter to the original decision of the Promotion and Tenure Committee shall be in writing and in detail. The recommendations

of the _Ad Hoc_ Appeals Committee, including all supporting documents, shall be considered by the appropriate Vice President in submitting his recommendation to the President of the College.

8.9.2 Appeal of Board Action on Tenure and Promotion

1. Any candidate for promotion or tenure who has not been approved by the Board may appeal the Board's decision by writing to the Chairman of the Board within five (5) calendar days of receiving written notice of the Board's decision.

2. In appealing to the Board, a candidate shall state in writing whether he wishes to present the case personally to the Board on a date designated and whether or not he wishes to be accompanied by a representative of the AAUP at the appeals meeting. Such candidates may also elect to be represented by legal counsel. The Board or its designee shall meet with affected candidates as soon as possible after receipt of the written appeal. The candidate shall not be permitted to submit any evidence in support of his appeal, unless such evidence was submitted to and considered by the Promotion and Tenure Committee and/or the _Ad Hoc_ Appeals Committee, or unless such materials related to matters occurring subsequent to the rendering of the decision of the Promotion and Tenure Committee. Copies of the Board's decision shall be forwarded to the candidate, the President of the College, the AAUP, and the appropriate Vice President.

ARTICLE IX

PROFESSIONAL DEVELOPMENT

9.1 Sabbatical Leaves

Sabbatical leaves are intended to encourage and promote the professional growth of the faculty and to enhance their scholarly, teaching, and professional effectiveness. Such leaves contribute to the accomplishment of these ends by enabling the faculty to undertake specific, planned activities involving study, research, scholarship, and creative work of mutual benefit to the faculty member and the College.

9.1.1 Eligibility: A voting faculty member who has served the College full-time for a period of at least six (6) years or twelve (12) semesters since the initial appointment or since a previous sabbatical leave shall be eligible for consideration during the sixth year. The years of service or semesters need not be consecutive if an approved leave of absence is granted. Faculty members shall not be granted a sabbatical leave which would take place during or immediately preceding a retirement or terminal appointment.

9.1.2 For faculty members on an academic year appointment, a sabbatical leave may be for one (1) semester at full salary or for two (2) semesters at one-half (1/2) salary. For faculty members on a twelve (12) month appointment, the sabbatical leave may be for six (6) months at full salary or one (1) year at one half (1/2) salary. Twelve (12) month teaching faculty who are usually obligated to teach during Summer School shall be exempt from such obligation if their sabbatical begins or ends during the course of a summer session.

9.1.3 A faculty member on sabbatical leave shall receive all fringe benefits to which he is entitled.

9.1.4 While on sabbatical and upon return from sabbatical leave, faculty members shall receive all salary increases, merit or promotion increases, awards of promotion or tenure which would have been received had the faculty member not been on sabbatical leave.

9.1.5 The Association and the College agree that no more than ten (10) percent of the faculty may be granted sabbaticals during an academic year, including the summer prior to the next academic year. Except in rare circumstances, a Department with fewer than 12 full-time faculty shall not be granted sabbaticals which cause the loss of more than one (1) full-time faculty member or its equivalent during the academic year.

9.1.6 Replacement of faculty members on sabbatical leave shall be accomplished either by the appointment of a qualified substitute in the department or the distribution of compensated overload within the department.

9.1.7 Procedures: Applications for sabbatical leave shall be submitted to the Chairman of the department not later than September 15 of the academic year preceding the anticipated sabbatical. Applications for sabbaticals shall include (a) the presentation of a definite plan for the scholarly use of the sabbatical; (b) an indication of the specific semester(s) for which the leave is requested; (c) a description of any fellowship or grant pending or secured at the time of making application for sabbatical leave. The Chairman and the Department Committee, exclusive of those who are applying for a sabbatical, shall take into consideration the criteria for sabbaticals and the anticipated needs of the department and rank requests for sabbatical leaves. The recommendations of the chair and the department including specific plans for replacement or coverage for the faculty member on sabbatical, shall be submitted to the Promotion and Tenure Committee no later than September 30.

The Promotion and Tenure Committee shall consider the requests and the recommendations and submit its ranked recommendations to the Vice President and Dean of Academic Affairs no later than October 31. The Vice President shall consider the recommendations of the chair, the Department, and the Promotion and Tenure Committee along with the criteria for Sabbatical Leave and the needs of the College and submit his recommendations to the President. The President of the College shall make his recommendation to the Board of Trustees whose decision shall be final.

Applicants for sabbatical leave shall be notified in writing no later than January 2 of the academic year preceding the anticipated sabbatical leave as to the disposition of their applications.

9.1.8 Criteria: Those who are charged with the responsibility of rendering judgments on the merits of sabbatical applications shall apply the following criteria according to the listed priority:

a. Value of proposed program to the faculty member and the College.

b. Effect of the leave on the College program and resources.

c. Seniority in length of service since previous sabbatical or initial appointment.

d. Seniority in rank.

The sabbatical program shall require a lengthy period of continuous release from normal faculty responsibilities and should not be accomplishable in shorter intervals and with other forms of assistance already available or made available through this Agreement for professional growth. In no case shall a faculty member be denied a sabbatical solely on the basis of Department or College needs.

9.1.9 Conditions: Faculty members on sabbatical are expected to follow the program detailed in the application. The Chairman and the Vice President and Dean of Academic Affairs shall be notified of any substantial modifications in the program. While on sabbatical, faculty members may avail themselves of fellowships, assistantships, travel expenses, grants-in-aid, or other financial assistance received from sources other than the College provided that such assistance does not require full-time employment or other duties detrimental to the sabbatical program for which leave has been granted. Faculty members who accept sabbatical leave are obligated to return to service at the College for a minimum of one (1) year immediately following the completion of sabbatical leave. In the event that the faculty member fails to honor the plan submitted with the Sabbatical Leave application or fails to return to the College said faculty member shall repay the college the salary provided during the sabbatical; such repayment may be waived or deferred at the discretion of the President of the College. By the end of the first semester following their return to the College recipients of sabbatical leaves shall file a written report of the sabbatical activities and accomplishments with the Department Chairman and the Vice President and Dean of Academic Affairs.

9.1.10 Normally, faculty offices shall be retained and may be used by a faculty member while on sabbatical; however, in the event that a replacement for the faculty member is needed and no other suitable office space is available, the faculty member's office shall be provided to the replacement faculty member.

9.1.11 If a faculty member shall serve more than six (6) years before a first sabbatical leave or between sabbatical leaves, the additional years beyond six (6) shall not be credited toward the next sabbatical leave. However, a faculty member whose approved sabbatical leave has been deferred or postponed because of an institutional need shall begin to accumulate service credited toward the next sabbatical as of the scheduled start of the deferred or postponed sabbatical but not including the time, if any, eventually spent on the deferred or postponed sabbatical.

9.2 Professional Development Leave

Unit members who are not voting faculty shall be eligible for a professional development leave with full pay and benefits of not more than six (6) months after they have completed six (6) years of service.

Unit members interested in applying for a Professional Development Leave should apply at least six (6) months prior to the anticipated start of the leave. The application must include a statement of the purpose of the leave, a plan of activity, and the intended benefits to the College and the unit member.

ARTICLE X

SEVERANCE PROCEDURES

10.1 At times it may be necessary for the College or the individual unit member to sever their professional relationship. In order to protect the interests of both parties, various kinds of severance actions are here defined, and the policies and procedures related to each category are set forth.

10.2 Resignation

10.2.1 Resignation is an action by which a unit member terminates an appointment.

10.2.2 Upon receiving notification of the terms and conditions of an appointment, it shall be the professional obligation of a unit member to respond within thirty (30) calendar days. An extension, depending upon circumstances, may be granted by the appropriate Vice President upon request. In all circumstances, a unit member is expected to reply in one (1) of three (3) ways: (a) acceptance; (b) declination or resignation; or (c) request for extension.

10.2.3 A unit member who resigns his appointment effective at the end of an academic year shall give notice in writing at the earliest possible opportunity, but not later than May 15 or thirty (30) days after receiving notification of the terms and conditions of an appointment at Delaware State College for the coming year, whichever date occurs later.

10.2.4 The unit member may properly request a waiver of this requirement of notice in case of hardship or in a situation where he would otherwise be denied substantial professional advancement or other opportunity. However, if the resignation is submitted for any reason within thirty (30) days of the first day of class of an academic semester, the unit member will indemnify the College for all direct cost of a search for a replacement.

10.3 Non-Reappointment

10.3.1 Non-reappointment means that any appointment other than a tenured appointment is not renewed at the end of its term. Non-reappointment through a terminal contract shall be automatic for those faculty members who fail to achieve tenure during the final consideration period.

10.3.2 Legitimate reasons for non-reappointment may include but not necessarily be limited to the following: the unit member's failure to meet the professional standards of competence in teaching, research, or professional service; or failure to meet the Judgmental Criteria used in evaluations; or departmental changes in program or enrollment; or the return of a unit member to the department in which the probationary appointment was clearly a substitute appointment.

10.3.3 Recommendations for non-reappointment shall be made by the Departmental Chairman, Academic Director, or Head Librarian to th appropriate Vice President when a majority of the Department so recommends or the needs of the Department so dictate.

10.3.4 The appropriate Vice President shall review the recommendation for non-reappointment and shall support a well-documented recommendation except for substantial reasons which shall not be arbitrary. In the event of disagreement, the appropriate Vice President shall meet with those responsible for the recommendatio of non-reappointment.

10.3.5 A unit member who is denied reappointment or given a terminal appointment shall have the right to an interview with the appropriate Vice President.

10.3.6 If non-reappointment is approved by the appropriate Vice President, he shall recommend non-reappointment to the President of the College, who, if he approves, shall recommend non-reappointment to the Board of Trustees. The appropriate Vice President and the President of the College shall normally not grant reappointment to any unit member who has not received a favorable recommendation of the majority of those in the department responsible for evaluating a unit member.

10.3.7 Written notice that an appointment is not to be renewed shall be given to the unit member in advance of the expiration of the appointment as follows:

a. Not later than March 1 of the first academic year of service if the appointment expires at the end of that year; or, if a one (1) year appointment terminates during the academic year, at least three (3) months in advance of its termination.

b. Not later than December 15 of the second academic year of service if the appointment expires at the end of that year; or, if an appointment terminates during the academic year, at least six (6) months in advance of its termination.

c. At least twelve (12) months before the expiration of an appointment after two (2) or more years of service at the College.

10.3.8 If possible, unit members whose positions depend in part or in full on external funding shall be afforded notification dates as contained in this section. The withdrawal of external funding ma result in the termination of the position effective the expiratio date of the external contract. The act or date of termination of the affected position is not subject to the grievance procedure. Such a bargaining unit member shall be provided an opportunity to apply for any College openings, provided that he meets the criteria established by the affected department. When transferred, such a bargaining unit member shall not be considered to be a new employee.

10.3.9 Final decisions concerning non-reappointment of a unit member shall not be subject to the Grievance Procedure of this Agreement. Alleged violations of the procedure for non-reappointment are subject to the grievance procedure.

10.4 Dismissal and Other Sanctions

10.4.1 Dismissal is a severance action by which the college ends its professional relationship with a tenured faculty member for adequate cause. Dismissal is also the means by which the College removes for adequate cause a unit member from service before the end of a specified term.

10.4.2 "Adequate Cause" for dismissal shall be predicated upon substantiated charges directly and substantially related to the fitness of the affected unit member to discharge professional responsibilities.

10.4.3 Dismissal proceedings may be instituted for any of the charges listed below:

a. Failure to perform professional responsibilities either through incompetence, persistent negligence, refusal to carry out reasonable assignments, or disregard for scholarly and professional standards and ethics.

b. Conviction of a felony which renders the unit member unfit or unable to perform professional responsibilities.

c. Fraud or misrepresentation of professional preparation, accomplishments, or experience in connection with initial appointment or in the submission of materials for evaluation for promotion, tenure, or merit increases.

d. Deliberate and grave violation of the rights and freedom of other members of the College community.

e. Grave personal misconduct of such a nature as to warrant and evoke the condemnation of the academic community.

f. Abandonment: Absence from scheduled responsibilities for ten (10) calendar days without proper notice to the College.

g. Failure to participate in an approved rehabilitation program by unit members whose professional performance is materially affected by drug and/or alcohol abuse.

10.4.4 Dismissal of any unit member before the end of the specified terms shall be preceded by discussions between the unit member and appropriate administrative officers looking toward a mutual settlement. If a mutually acceptable resolution is reached, the issue shall be deemed resolved, and a statement of the terms of the mutual settlement shall become part of the unit member's personnel file, which settlement shall not be inconsistent with the terms of this Agreement. A copy of the terms of settlement shall be given to the unit member, the appropriate Vice President, and the President of the AAUP.

10.4.5 If the discussions prove inconclusive, the President of the College shall notify the affected unit member of his intention to commence dismissal proceedings, which notification shall be accompanied by a written statement of specific charges, and a copy sent to the President of the AAUP. Within ten (10) calendar days after receipt of the foregoing notification, the affected unit member may either resign, accept dismissal, or agree to a hearing before an Ad Hoc Dismissal Committee.

10.4.6 a. The Ad Hoc Dismissal Committee shall be appointed jointly by the appropriate Vice President and Chairman of the Faculty Senate. It shall consist of five (5) unit members, preferably tenured, none of whom may be from the department of the affected unit member. Prospective members of the committee deeming themselves disqualified for bias or interest shall promptly notify the appropriate Vice President that they are unable to serve. The President of the College and the affected unit member may each exercise one challenge without stated cause.

b. In cases involving counselors, the Ad Hoc Dismissal Committee will be appointed jointly by the Vice President of Student Affairs and the President of the AAUP. It shall consist of five (5) unit members, none of whom shall be from the counseling department.

10.4.7 Pending a final decision by the Ad Hoc Dismissal Committee, the affected unit member may be suspended or assigned to other duties in lieu of suspension if he is unable to discharge his responsibilities, or if immediate harm to himself or others is threatened by his continuance in his former duties. Under most circumstances, the salary shall continue during the period of suspension.

10.4.8 The Ad Hoc Dismissal Committee shall promptly begin preparations for the hearings. The Committee may, with appropriate notice to the parties concerned, hold joint meetings with the parties in order to (a) simplify the issues; (b) effect stipulations of facts; (c) provide for the exchange of documentary or other information; and (d) achieve such other appropriate prehearing objectives as will make the hearing fair, effective, and expeditious.

10.4.9 The Ad Hoc Dismissal Committee shall serve notice of hearing, with specific charges in writing, at least twenty (20) calendar days prior to the hearing.

return receipt requested; and attempts to contact known relatives.

b. If the unit member is located within forty-five (45) calendar days from the date of suspension, the College shall evaluate the situation and either reinstate the unit member or institute dismissal proceedings as set forth in this provision.

10.4.17 If the Administration believes that the conduct of the unit member, although not constituting adequate cause for dismissal, is sufficiently grave to justify imposition of a sanction the procedures and standards outlined hereinabove for dismissal shall govern such a proceeding.

10.4.18 Dismissal for adequate cause as outlined in this section is not subject to the grievance procedure. Alleged violations of the procedure for dismissal for adequate cause are subject to the grievance procedure.

10.5 Termination

10.5.1 Termination is a severance action by which the College terminates the services of a unit member before the end of a specified term without prejudice to the performance of the affected unit member. Financial exigency, discontinuation or reduction of a program, or prolonged mental or physical disability are the only causes for termination of a unit member before the end of a specified term.

10.5.2 Financial exigency exists when the financial position of the College demonstrates that a financial crisis is imminent and that failure to retrench would seriously jeopardize the College. The following procedures shall be followed in the event of termination under financial exigency.

10.5.3 Should the Administration anticipate a financial exigency which may result in the termination of unit members, the data upon which this anticipation is based, including the amount of savings which it deems necessary to effect, shall be presented to the AAUP. It shall also provide such additional data which the AAUP may request within twenty (20) days following that presentation. The Administration and the AAUP may agree to submit either a joint recommendation or separate recommendations to the Board as to whether a financial exigency exists. Both the Administration and the AAUP agree not to submit a recommendation to the Board and the Board agrees not to accept recommendations from either party until thirty (30) days after the Administration has submitted the data upon which the anticipation of financial exigency is based. It is agreed that such data shall be accurate, complete and consistent.

10.5.4 Discussion by the Board leading to a Board action on financial exigency must take place in a public meeting. Termination of tenured faculty members may not take place until the formal declaration of financial exigency has been made by the Board of

Every possible effort shall be made to obtain the most reliable evidence available.

k. The findings of fact and the decision shall be based solely on the hearing record.

10.4.12 The Committee shall notify the President of the College and the unit member and the President of the AAUP of its decision in writing within seven (7) calendar days after the conclusion of the hearing. The Committee shall state its finding of fact, its conclusions and the reasons therefore, and its recommendation that the unit member either be dismissed or not dismissed.

10.4.13 The Committee shall also be empowered to determine an appropriate remedy if it does not recommend for dismissal.

10.4.14 The recommendation of the Ad Hoc Dismissal Committee shall be transmitted to the Board by the President of the College. The Board shall consider the recommendation and render a decision in writing to the affected unit member within thirty (30) calendar days after receipt of the Committee's recommendation. Copies of the Board's decision shall be provided the Presidents of the College and the AAUP, the appropriate Vice President, and the Chairman of the Ad Hoc Dismissal Committee. In the event that the Board's decision is for dismissal, the affected unit member shall have the right to appeal directly to the Board and present evidence on his behalf. Such appeals shall follow the same procedures as stipulated in Article VIII, Section 9.2. In the event the Board chooses not to dismiss, it may determine an appropriate remedy.

10.4.15 If any tenured faculty member faces a dismissal for cause under incompetence charges which have been sustained and all hearings are completed, the Association may if its so desires, appoint two (2) representatives of its Executive Committee within five (5) calendar days of the Association's notice of the action being sustained, to meet with the appropriate Vice President in respect to the conditions of the dismissal once set on questions of compensation and/or benefits for the faculty member involved. In such discussion, previous service and performance shall be considered.

10.4.16 Dismissal, for abandonment, of any unit member may be effected only after the following procedures have been followed in the order listed:

a. If the unit member cannot be located and has failed to contact the College, he shall be suspended without pay effective from the first day of expected service pending contact for a period of forty-five (45) calendar days and shall be summarily dismissed at the end of that time if all efforts to contact the unit member have failed. Such efforts shall include telephone calls to the last known number; letters posted by registered mail,

4. Give serious consideration to transferring an affected tenured faculty member to a vacant non-faculty position for which he is qualified.

5. Unit members with inadequate qualifications for other vacancies in the College may be retrained up to a maximum of one (1) semester in the terminal year, and continued during such period on base salary on a reduced load basis during the retraining period with fringe benefits continued. The College may pay for tuition for such retraining if finances are available.

6. Offer a reduced load on a pro-rated basis without loss of tenure and such fringe benefits as permitted under existing contracts with insurance carriers.

7. Offer an early retirement opportunity if financial resources are available, and subject to the provisions of the applicable laws of the State of Delaware.

8. If possible, provide an opportunity for a joint assignment at another academic institution with salary and fringe benefits to be proportionately shared by each institution and the faculty member to retain tenure and seniority at the College.

10.5.7 In the event that such options are not feasible, reduction of unit members in a given department shall be accomplished in the following order of termination:

1. Eliminate faculty overload within the department or departments where there are faculty without full workloads who are qualified to teach such overload courses.

2. Eliminate any teaching duties by administrators in the affected departments unless it can be demonstrated that such teaching does not contribute to the termination of a unit member nor reduce the normal load of other unit members.

3. Termination shall take place first among the auxiliary ranks in the following order: Visiting, Adjunct, or any other part-time position. Within those auxiliary ranks, termination shall occur according to seniority. Seniority shall be based upon the date of initial appointment and continuous service; authorized leaves shall count as continuous service.

4. For Departmental Assistants and Library Assistants, termination shall take place according to seniority providing that the senior Departmental or Library

Trustees, which must include a statement of the amount of money needed to relieve the exigency.

10.5.5 Following a declaration of financial exigency, a joint Financial Exigency Committee shall be formed and shall consist of five (5) members appointed by the Administration and five (5) members appointed by the Association. All appointments shall be made within ten (10) working days after the formal declaration of financial exigency. The purpose of the Committee shall be to develop recommendations to provide sufficient savings for relieving the exigency. The Committee shall have ninety (90) calendar days within which to develop the recommendations unless such time is extended by the Board.

10.5.6 In developing recommendations for relieving the exigency, the Committee shall use the following criteria and principles:

a. The Committee shall first investigate ways to relieve the exigency by means of exhausting the possibilities of immediately initiating mechanisms for raising funds or of reallocating current funds. The College and the Association agree that unit members should not bear the brunt of financial exigency alone.

b. Before final recommendations are made with respect to the termination of unit members, the Committee shall first notify unit members in each department to be affected and shall consider alternate solutions which that department may propose for effecting an equivalent reduction in its budget.

c. When there is a demonstrable need to terminate unit members, the Committee, in consultation with the affected departments and the appropriate Vice President shall first pursue and if possible recommend alternatives that will allow such unit members to remain employed at the College. If at all possible, the process of natural attrition shall be used instead of retrenchment. Other specific measures taken may include, but not be limited to, each of the following:

   1. Provide an opportunity for affected unit members to apply for vacant positions for which they may be qualified.

   2. Provide an opportunity for full-time faculty to complete a full-time teaching load in another discipline in which they are qualified.

   3. Provide an opportunity for full-time faculty without a full-time teaching load to apply for part-time non-teaching or administrative duties where vacancies exist in order to complete a full-time workload, provided that they are qualified for the position.

10.5.8 The Committee shall present its recommendations in writing directly to the Board of Trustees. The final recommendations of the Committee shall represent the majority view; minority recommendations may be submitted to the Board if they are signed by at least three (3) members of the Committee.

10.5.9 The Board shall consider such recommendations as it receives from the Committee and render a decision.

10.5.10 Notice of possible termination shall be considered rendered when the Financial Exigency Committee notifies affected unit members in a particular academic unit and seeks alternative proposals from that unit. Depending upon the severity of the financial exigency, the College shall normally provide written notice of termination in accordance with the provisions of notice for non-reappointment. For tenured faculty, the College shall try to provide at least eighteen (18) months' notice, depending upon the severity of the financial exigency.

10.5.11 Within the limits of financial resources available and the nature of the financial exigency, the College shall make every effort to provide for the transition of a terminated unit member. The AAUP shall be informed of any such arrangements.

10.5.12 A unit member terminated under these provisions with three (3) or more years of service shall be eligible to continue insurance coverage with the same College benefits for a period of a year following the effective date of termination. Tenured faculty members who are terminated shall be eligible to continue insurance coverage with the same College benefits for a period of two (2) years following the effective date of termination. Unit members who are terminated must request extension of coverage in writing within thirty (30) days following termination. In no case shall such coverage extend beyond the end of the month in which the terminated unit member is reappointed elsewhere. This provision shall be subject to the restrictions of existing contracts with insurance carriers at the time of termination.

10.5.13 Unit members who are terminated shall be eligible for recall for an amount of time equivalent to the years of service at the College. Recall shall be in the inverse order of termination subject to the ability of the recalled faculty member to adequately perform the duties of the position. Terminated unit members shall notify the College each June following the termination date of their availability for recall. Failure to provide such notice shall release the College from any obligation to recall the unit member thereafter. The College shall notify the unit member of a recall opportunity by registered letter sent to the last address filed with the College. In the event the recalled unit member does not notify the College of acceptance of recall within thirty (30) days of the date the notice is sent, the unit member shall be deemed to have refused recall and to have severed his relationship with the college.

Assistant is qualified to perform the duties needed for program integrity.

5. Termination shall next take place among non-tenured full-time faculty members according to seniority within such group in the affected department provided that the senior faculty member is qualified to teach the courses in question or perform the duties required.

6. Termination shall next take place among tenured full-time faculty members according to seniority in the department affected, provided the senior faculty member is qualified to teach the courses in question or perform the duties required.

7. In the event that two (2) or more unit members within the affected department have the same amount of seniority, the unit member(s) with the lesser rank shall be terminated first provided the ranking unit member is qualified to teach the courses in question or perform the duties required.

8. In the event that two (2) or more faculty members within the affected department hold the same rank and have the same seniority and tenure status, the procedures outlined in paragraph ten (10) below shall govern.

9. In the event that a unit member has served in more than one (1) department or has served the College in other capacities, seniority for purposes of this Article shall be based upon the total years of continuous service at the College.

10. General Procedures: In any departmental or program reorganization or in the instance of a financial exigency, academic program integrity, affirmative action, and seniority shall, after the above efforts have been exhausted, be given equal weight in the selection of faculty members for termination. Should a conflict arise among these priorities, the Association shall select two (2) representatives to meet with the appropriate Vice President and the Department Head(s) involved in the case of Departments, and with the appropriate Vice President and the President in the case of institutional financial exigency to attempt to resolve the conflict through a discussion of individualized and specific other criteria which may resolve the problem; among these may be professional competence, recognition for scholarly activities, and service to the College. In any case, after such consultation, if no acceptable or additional criteria or resolution can be reached within thirty (30) calendar days, the appropriate Vice President shall make the selection and proceed to implement the termination through the President to the Board.

10.7.2 Before a unit member can be so terminated, he must be notified of the action proposed, supplied with a general summary of the evidence of the disability and offered an opportunity to consult with the appropriate Vice President or any other administrator who has recommended that termination be initiated. A copy of such notification and general summary shall be sent to the Association at that time.

10.7.3 If, after such consultation, the disability is disputed by the unit member, and the unit member requests a hearing, a panel of three (3) unit members shall be appointed to review the evidence. The faculty member and the appropriate Vice President shall each appoint one (1) member of the panel, and those two (2) appointees shall select the third member who shall chair the panel.

10.7.4 The panel shall be constituted within ten (10) working days after the unit member requests the appropriate Vice President for a hearing.

10.7.5 The panel shall determine its own procedures for reviewing the evidence and may call medical or other witnesses. It must, however, permit the unit member to appear before the panel. The panel shall present its written recommendation within twenty (20) working days after it is constituted to the unit member, the appropriate Vice President and the Association.

10.7.6 Nothing in this provision shall be deemed to affect a unit member's rights under the medical plans or disability coverage or any other form of insurance then in effect.

10.8 Termination and Grievance Procedure

A unit member being considered for termination shall have the right to invoke the grievance procedures of this Agreement as to whether the criteria and procedures of this provision have been properly applied in his case.

10.5.14 No new full-time unit member shall be hired for a position in the same area of competence so long as the terminated unit member retains his recall rights to the position or department.

10.5.15 Recalled tenured unit members shall have tenure and rank reinstated. The time of termination will count in total years of service for purposes of seniority. Recalled non-tenured unit members shall have rank continued but such time for termination shall not count as probationary time for tenure. The period of termination shall not count as continuous service toward a sabbatical. Retirement benefits will be determined by the State Laws in effect at that time.

10.6 Termination Under Reduction or Discontinuation of Program

Termination of a unit member may also occur as a result of the formal reduction or discontinuance of a program. In the event that the appropriate Vice President anticipates the need for reduction in or discontinuation of a particular program or department or decides that a review of a particular department or program is necessary, the Association shall be so informed and a committee shall be established consisting of three (3) members appointed by the appropriate Vice President and three (3) members appointed by the Association. Said committee shall conduct a thorough evaluation of the financial status of the department or program, including consideration of enrollments, total income generated, ordinary direct operating expenses, value to the College as a whole, projected savings through unit member attrition and other economies, and possible alternative sources of funding. The Chapter-College committee may modify procedures and time frames as set forth in Section 5 of this Article, as circumstances dictate; however, there shall be no modification by such committee of the rights of affected unit members regarding available options, retention priorities, notice and severance pay, continuation of benefits, or recall rights. The parties agree that any formal decision to reduce or discontinue a program or department shall reflect long-range judgments that the educational mission of the College will be enhanced by the changes and shall not be based upon cyclical or temporary variations in enrollment.

10.7 Termination for Disability

10.7.1 A unit member may be terminated by the College as a result of a severe long-term physical or mental disability which substantially or irremediably impairs the unit member's ability to perform satisfactorily the professional responsibilities usually expected. Termination for disability shall normally not be instituted until after a unit member has been on sick leave for a period of two (2) consecutive academic years. Termination for disability shall be based on clear and convincing medical evidence that the unit member, upon the expiration of authorized sick leave or other leaves granted said faculty member, will be unable to satisfactorily perform duties usually expected.

ARTICLE XI

EVALUATIONS

11.1 Evaluations of the competence and quality of teaching and/or the performance of professional responsibilities and endeavors are an ongoing concern of the unit members and the administration. The purpose of evaluation is to improve the quality of instruction and/or professional services rendered and to provide regular and reliable information upon which personnel decisions such as promotion, tenure, reappointment, or merit increases may be based.

11.2 Unit members will be evaluated in the following areas: teaching and/or performance of professional responsibilities, professional growth and recognition, and contributions to the college and community. The methods of evaluation of faculty will include student evaluations, peer evaluation, classroom observation, chairman evaluation and administrative evaluation. The method of evaluation of non-teaching unit members will include peer evaluation and Academic Director or Head Librarian evaluations. Probationary and other non-tenured unit members will be evaluated each semester during the first two (2) years of service. After a probationary unit member has completed two (2) years of service, he will be evaluated each Spring semester. All candidates being considered for promotion and/or tenure will be evaluated only during the Fall semester of that academic year. After a faculty member has achieved tenure, the faculty member will be evaluated every third year during the Fall semester. However, if the evaluation of a tenured faculty member is less than satisfactory, he will be evaluated annually until the deficiencies have been corrected. Upon request to the department chairman or director, any unit member may elect to be evaluated during a semester, whether or not such evaluation falls within the above schedule.

11.3 Professional departmental evaluations of unit members shall be conducted by:

a. Departmental Chairmen, Academic Directors or Head Librarian regardless of rank, tenure, or others who are directly responsible for the performance of unit members;

b. Tenured departmental colleagues who hold rank equal to or above that of the faculty member being evaluated. In the event that there are no colleagues in the department who hold equal or higher rank, evaluations may be made by other colleagues upon the request of either the Departmental Chairman, the Vice President and Dean of Academic Affairs, or the affected faculty member.

11.4 Evaluations shall be taken into consideration by those individuals or committees charged with the responsibility of recommending or not recommending candidates for promotion, tenure, reappointment, merit increases or other personnel decisions. No particular weight shall be given to one kind of evaluation - student, chairman, colleague, over another; however, in some cases, it may be necessary for further professional evaluations to be conducted. In such cases, the appropriate Vice President, or the President of the College, or the members of the Promotion and Tenure Committee, or members of an Ad Hoc committee charged with making recommendations regarding either dismissal or financial exigency may also choose to conduct professional evaluations of unit members.

11.5 While any evaluation carries with it certain subjective judgments, those charged with rendering professional evaluations are obligated to do so in an objective and honest manner.

11.6 Unit members have the right to know what is contained in any evaluation done by a chairman, peers, or those in the administration charged with such responsibility. Unit members shall be accorded the opportunity to discuss the evaluations with the chairman, and/or the appropriate administrator. At such time, unit members shall be given a copy of all professional evaluations and asked to initial the originals. Such initialing shall not be construed as agreement or disagreement, but merely an indication that the unit member has seen the evaluation and been given a copy. Unit members have the right to respond in writing to any or all of the evaluations; such response shall be submitted no later than ten (10) working days from the time that the affected unit member received copies of the evaluations and shall be included and made part of the personnel file.

11.7 Student evaluations for faculty members and counselors shall be conducted every year. Such evaluations shall be presented in summary form so as to preserve the anonymity of students. During the life of this contract, student evaluations shall remain with the Department Chairman or Director of Counseling where discussions concerning such evaluations shall take place. Copies of summary student evaluations will be provided to the concerned unit member and counselor upon request. Unit members and counselors shall be granted the opportunity to respond to such evaluations. Student evaluations shall be included in the faculty and counselors' personnel file. Summaries of the student evaluations shall be provided to the Promotion and Tenure Committee.

11.8 When any unit member receives an unsatisfactory evaluation, it shall be the responsibility of the Department Chairman, Academic Director, or Head Librarian to develop a prescriptive plan that is deemed necessary in order to rectify the deficiency. Should the unit member refuse the follow the prescriptive plan, he may be subject to dismissal or non-reappointment under Article X of this Agreement. Probationary faculty members and other unit members being considered for reappointment shall be evaluated according to the criteria set forth in Article VIII of this Agreement.

11.9 The annual evaluation of probationary unit members shall form the basis for their reappointment. The unit member shall receive a copy of his annual evaluation at a conference between the unit member, the Department Chairperson, Academic Directors, and Head Librarian, and the appropriate Vice President. The evaluation shall result in an Individual Development Plan that will guide the unit member in achieving professional excellence and promotion. The annual evaluation shall be signed by the unit members to reflect recognition but not necessarily agreement with the evaluation. The unit member shall have the right to attach a statement of amendment or rebuttal to the evaluation.

11.10 General Procedures for Evaluations

11.10.1 Student Evaluations of Faculty Members

Student evaluations of teaching performance shall be conducted each year by the administration. Student evaluations shall be conducted during the month of November for the Fall semester, and during the month of March during the Spring semester.

The student evaluation instrument will be developed and/or selected by a ten (10) person committee. Three members of the committee will be appointed by the Vice President and Dean of Academic Affairs, three unit members appointed by the AAUP, three unit members appointed by the President of the Faculty Senate, and a student member who shall be the President of the SGA or his designee. If there is no agreement by this Committee on a form to be used by June 30, 1988, the Vice President and Dean of Academic Affairs and the Director of Testing shall adopt and implement a Student Evaluation Instrument beginning with the 1988-89 academic year.

The Committee shall also develop procedures to govern the administration, distribution, collection, tabulation, and confidentiality of the student evaluation process.

11.10.2 Chairmen, Academic Directors and Head Librarian Evaluation of Unit Members: They have the responsibility of evaluating, according to the frequency set forth in Section 2, all members of their department. Techniques of evaluation for faculty shall include, but not be limited to, classroom observation, review and analysis of course outlines, exams, and graded papers, review of publications and professional development; and other evidence of professional and teaching proficiency. Techniques for evaluation of non-teaching unit members shall include professional services to the College and community and professional development. While there are many means of arriving at a considered judgment regarding the performance of a faculty member, classroom observation is the most direct means of evaluating the performance of a faculty member whose primary responsibilities include teaching. Chairmen must indicate on the evaluation form the date(s) that classroom observation occurred. For those being evaluated during the Fall semester, chairmen must conduct the evaluation; review the evaluation with the faculty member; provide a copy to the faculty member; retain a copy for department files; and submit a copy of the evaluation to the Vice President and Dean of Academic Affairs by October 31. For those being evaluated during the Spring semester, chairmen shall conduct the evaluation; review the evaluation with the faculty member; provide a copy for the faculty member; retain a copy for departmental files; and submit a copy of the evaluation to the Vice President and Dean of Academic Affairs by February 28. Evaluation of non-teaching unit members must be submitted to the appropriate Vice President by the above dates.

11.10.3 Peer Evaluations of Unit Members: The Association and the College agree that peer evaluation is a desirable part of the evaluation process. Techniques of evaluation for faculty shall include, but not be limited to, classroom observation; review and analysis of course outlines; exams and graded papers; review of publications and professional development; and other evidence of professional and teaching proficiency. Techniques of evaluation of non-teaching unit members shall include a review of the professional services to the College and community and professional development. Peers are defined in Section 3B; in departments in which peers are not available for evaluation, the department chairman, the appropriate Vice President or the affected unit member may request other members of the department, or, in rare instances, unit members from other departments to evaluate colleagues. Colleagues shall complete their evaluation of those being considered for promotion or tenure and submit said evaluation to the chairman of the department prior to the Chairman, Academic Directors, and Head Librarian's review of evaluations with the unit member. All other evaluations done by colleagues shall be submitted to the Department Chairman, Academic Directors and Head Librarian prior to the Chairman, Academic Directors and Head Librarian's review of evaluations with the unit member. The chairman shall provide the faculty member with a copy of the peer evaluations, retain a copy for the department file, and submit a copy to the appropriate Vice President for inclusion in the personnel file not later than February 28.

11.10.4 Classroom Observation: Classroom observation shall be done only at times convenient to the affected faculty member. The affected faculty member shall be given at least forty-eight (48) hours' notice that a classroom observation is to be made. If an exam or other such written or non-classroom assignment has been previously scheduled, arrangements shall be made to observe the class at another time. Faculty members, including candidates for promotion and tenure, must be evaluated through classroom observation by the chairman, and should expect and encourage other colleagues to visit and observe their classes. Classroom observations shall be conducted well in advance of the formal evaluation. The department chairman and the affected faculty member shall discuss the results of the classroom observation within two (2) weeks following the observation.

11.11 Faculty members teaching Continuing Education credit courses, or any part-time faculty members teaching credit courses shall be evaluated according to the procedures herein.

11.12 It is recognized by the College and the Association that the evaluation procedure is a continuing one, intended for constructive purposes. The appropriate Vice President, Chairman, Academic Directors, Head Librarian and colleagues shall provide regular opportunities to discuss professional evaluations and performance and to offer assistance to unit members in the improvement of professional performance.

11.13 Evaluation of Chairmen, Academic Directors, and Head Librarians

11.13.1 Chairmen, Academic Directors, and Head Librarians shall be subject to all of the procedures to be followed for all unit members in matters of recommendation or non-recommendation for promotion, tenure, reappointment, merit increases, or other personnel decisions; however, in the case of a Chairman, Academic Director, and Head Librarian, the appropriate Vice President or the appropriate Assistant Dean shall perform the evaluation duties of a Chairman, Academic Director, and Head Librarian, and peer evaluations shall be submitted directly to the appropriate Vice President.

11.13.2 Chairmen, Academic Directors, and the Head Librarian shall be evaluated in their role annually by each member of the department. Such evaluations shall conducted by the appropriate Vice President or the appropriate Assistant Dean during March of each year and departmental members shall submit their signed evaluations to the appropriate Vice President or the appropriate Assistant Dean no later than February 1. The appropriate Vice President or his designee shall conduct evaluations of Chairmen, Academic Directors, and the Head Librarian and shall confer with each Chairman, Academic Director and Head Librarian to discuss the results of his evaluation and those of unit members unless such unit members have also submitted a copy of their evaluation to the Chairmen, Academic Directors and the Head Librarian. At the beginning of the academic year, the Chairmen, Academic Directors and Head Librarian will develop an annual objective plan for themselves, which shall include recommendations based upon these evaluations, and will provide written copies to the appropriate Vice President or his designee. Progress on this plan will be discussed during the middle of the year and again during the annual evaluation. If the Department Chairmen, Academic Directors and Head Librarian either fails or refuses to develop a plan for themselves, they he will be subject to removal from the position of Chairman, Academic Director or Head Librarian. The evaluation of the appropriate Vice President or his designee of the Chairmen, Academic Directors, or Head Librarian shall be made a part of the Chairman, Academic Director, or Head Librarian's personnel file.

ARTICLE XII

WORKLOAD

12.1 Work Year

12.1.1 Academic Work Year

Unit members holding ten month contracts are expected to provide their services and discharge their responsibilities during the Academic Work Year, except for the College's scheduled student vacation periods (see Article III, Section 4).

12.1.2 Calendar Work Year

Unit members whose primary responsibility is not teaching shall work on a calendar year basis beginning July 1 and ending June 30 of the following year, or on such other twelve month basis may be dictated by external funding.

12.1.3 Counseling Work Year

Members of the Counseling Department on a ten month contract shall begin work each semester five (5) working days prior to the beginning of New Student Orientation. Counselor's work year shall follow the faculty/student year with the exception of Spring Recess and will end May 31. Counselors shall not accrue annual leave. Such contracts will commence on August 15 and be payable over a ten month period to June 15. Ten month counselors may be appointed for summer sessions; compensation for summer counseling sessions will be based upon the ten month base salary prorated by the number of weeks of summer session.

12.2 Academic Load

Academic Load is described as: formal and informal instruction, tutorials, advisement and counseling of students, research and writing, preparation of new courses and updating of other courses, service on various campus committees, and the rendering of other professional services.

12.2.1 Basic Teaching Load

Full-time unit members whose primary responsibility is teaching are obligated over the Academic Year to carry a teaching load of twenty-four (24) credit hours, normally divided into two semesters of twelve (12) hours each. Faculty members assigned to teach graduate courses shall receive 1.33 credit hours of teaching load for each credit hour of a graduate course. Prior to the scheduling of classes and in consultation with the Chairman, a faculty member may request in writing that the teaching load be distributed among both day and evening classes and/or a combination of underload in one semester and overload in another. Such requests shall not interfere with the normal academic offerings and shall have the prior approval of the Chairman and the Vice President and Dean of Academic Affairs. In unforeseen circumstances, the faculty members may be required to accept an-other-than normal distribution of the twenty-four (24) hour obligation; in such cases, redistribution of the teaching load shall be made after consultation with the affected faculty member.

Teaching faculty members who receive a twelve (12) month contract are expected to teach six (6) credit hours or its equivalent during the summer. In addition, twelve month teaching faculty are expected to be available for departmental, college, and committee assignments beginning the day after commencement and ending July 31, except for scheduled college vacation periods.

If a Department is unable to provide a full workload for a faculty member, the administration, the Department Chair and the faculty members shall agree upon an appropriate remedy for that semester.

12.2.2 Teaching Load Equivalency

In certain departments, disciplines, or academic assignments, credit hours are not a viable measure of a faculty member's teaching load. The parties agree that during the 1987-88 academic year Departments shall meet with representatives of the College to develop mutually agreeable teaching load equivalencies. Agreements on workload equivalencies shall be reduced to writing and shall be subject to approval by the Parties to this Agreement and shall become part of this Agreement.

Failure to come to agreement on workload equivalencies by June 30, 1988 shall result in non-lecture instructional activities being counted as 0.5 credit hour per hour.

12.2.3 Non-Teaching Unit Member Load

The workload for all non-teaching unit members shall be thirty-five (35) hours per week. The College shall determine the unit member's work schedule subject to the following conditions:

1. work schedules shall be established prior to the start of each semester;

2. assignments that include evening or weekend obligations shall be rotated from session to session among the department members, unless a unit member expresses a preference for such a schedule, or a prior contract for an individual specifies otherwise;

3. unit members employed after June 30, 1987 may be assigned evening or weekend schedules as part of their permanent schedule;

4. non-teaching unit members who are assigned to teach credit courses during the normal workday shall have class

time and two (2) hours per credit hour for the purpose of preparation, testing, grading, and advisement included in the determination of their thirty-five (35) hour week assignment;

5. non-teaching unit members may not be assigned to teach more than six (6) credit course hours as part of their thirty-five (35) hour week assignment; and

6. counselors employed prior to June 30, 1987 shall not be involuntarily assigned duties on more than one night per week.

12.2.4 Department Chairperson Workload

Department Chairmen shall basically follow the teaching faculty workload as contained in Section 2.1. The Chairmen's teaching load will be reduced in accordance with Department Chairmen compensation as defined in Article XVII.

12.3 Faculty Representation and Obligations

The Association and the College recognizes that mutual benefits derive from continual improvement of the College as an institution of higher learning, and that, toward this end, the primary professional responsibility of each member of the faculty is to the College. The Association and the College concur that each member of the faculty should display a high degree of professionalism. To that end, the Association and the College agree that accepting and assuming a faculty position at Delaware State College entails the following professional responsibilities and obligations:

a. To maintain professional competence and knowledge of subject matter and strive to keep informed of contemporary developments in the field of specialization through reading and research.

m. To adhere to deadlines and schedules established for the timely reporting of grades and for other matters related to student registration and record-keeping.

12.3.1 Responsibilities of Non-Teaching Faculty

To the extent that the above professional responsibilities and obligations may apply to situations other than the classroom, such responsibilities and obligations shall also be those of non-teaching faculty, where applicable.

Non-teaching faculty are also obligated to render professional service according to the specific demands of the particular position and to maintain high professional standards in performing their duties. Furthermore, non-teaching faculty are expected, within the limitations imposed by the workload hours, to participate and to accept willingly a fair share of departmental and college duties and committee assignments.

12.3.2 Chairmen Responsibilities

The Association and the College agree that accepting and assuming the responsibility of a department includes but is not necessarily limited to the following professional responsibilities and obligations:

a. To preside at departmental meetings or department committee meetings.

b. To participate in the recruitment of faculty or staff for the department.

c. To arrange course schedules and offerings in consultation with the faculty and according to procedures set forth in this Agreement.

d. To prepare and submit budget requests and administer the department budget within policies established by the College.

e. To evaluate members of the department and make recommendations concerning appointment, reappointment, non-reappointment, promotion, tenure, sabbatical, and leave.

f. To develop programs of study, course offerings, curriculum, and other academic policies in conjunction with the appropriate department and Senate committees.

In the event that a Chairman disagrees with the recommendations of the Department committee or the Department as a whole on any matter, a minority report may be filed with the Vice President and Dean of Academic Affairs or the appropriate committee. Such reports shall reflect the personal opinion of the Chairman and not be construed as the opinion of the Department.

12.4 Workload Assignment

Department Chairmen have the responsibility of assigning faculty workloads, subject to the approval of the Vice President and Dean of Academic Affairs. Workload assignments shall be based on a consideration of academic qualifications and expertise, needs of the students, department policies and guidelines, the applicable provisions of this Agreement, faculty preferences, and the continual necessity for revitalization and improvement of the instructional program. Workload assignments shall not be made arbitrarily, capriciously, or with the intent or effect of discriminating against any faculty member.

12.4.1 Tentative teaching assignments will be made to unit members no later than March 1 for the following Fall semester and no later than November 15 for the Spring semester. No unit member will be assigned a teaching schedule which spans more than seven hours in a day or less than twelve hours from the end of class on one day to the start of class on the following day without the prior written consent of the faculty member.

12.4.2 The Registrar is responsible for the final preparation of class schedules. In assigning classrooms and class time, the Registrar shall give maximum consideration to department requests; the Registrar shall attempt to see that no faculty member is scheduled for two consecutive classes in different buildings. Faculty members shall normally expect to teach most of their classes in the same building as their office or department office is housed.

12.4.3 Class Preparation

Class preparation shall be no greater than three course preparations per semester except in those cases where department size requires faculty to assume a greater preparation load to maintain academic program integrity. In such departments every effort shall be made to rotate the extra preparations. Faculty members in other departments may voluntarily accept more than three (3) preparations.

12.5. Availability of Teaching Faculty

Each full-time faculty member shall hold at least four (4) office hours per week during the academic year when classes are in session. Faculty members should distribute office hours over at least four (4) days as best to serve the needs of the students. Faculty teaching evening hours shall schedule some of their office hours in the evening. There should be at least one (1) office hour per course taught. Office hours shall be posted and on file with the Chairman. It is agreed that Department Chairmen should hold at least seven (7) hours per week distributed over a five day period.

At the time of advisement, pre-registration, registration, and late registration, as established in the Academic Calendar, faculty members, particularly chairmen, assigned to these duties shall make additional office hours available.

Each full-time faculty member shall maintain a significant presence on campus for teaching, office hours, sponsored research, committee work, planning activities, meetings, research, advisement, et alia. The Association and the College agree that faculty members should spend sufficient time on campus to carry out their professional responsibilities effectively; however, there shall be no fixed scheduling of time at which teaching faculty members shall be required to discharge their professional responsibilities except as required by scheduled classes, office hours, department and committee meetings, and other events which faculty members are required to attend by this Agreement.

12.5.1 Faculty Attendance

Faculty members are expected to conduct all classes as scheduled. In the event of illness or unavoidable absence, the faculty member shall notify the appropriate Chair or, if unavailable, the Vice President and Dean of Academic Affairs

Provided that reasonable notice is given, faculty members are also expected to attend all general faculty meetings, department meetings, and meetings of any standing committee, including the Faculty Senate, to which they have been elected or appointed, unless the faculty member has classes scheduled at that time.

All faculty members, unless excused by the Vice President and Dean of Academic Affairs, shall attend Commencement. Attendance of faculty members at other college sponsored functions is expected and encouraged.

12.6 Committee Service

As agreed in Section 3 of this Article, faculty members are obligated and expected as part of the workload to serve on committees; however, the College and the Association agree that faculty members cannot be required to serve on more than two (2) college-wide committees, including the Faculty Senate. Such limitation is intended to provide all faculty members with an opportunity to serve on various committees and to provide the various committees with diverse viewpoints; it is understood that such a limitation does not preclude faculty members from voluntarily serving on more committees or from accepting a reasonable and fair share of department or Ad Hoc committee assignments.

12.7 Overload

a. Unit members who have been approved to teach in excess of their basic teaching load will be paid overload in accordance with the payment schedule contained in Article XVII, Salary.

b. In no case will a unit member be permitted to have an overload assignment in excess of two (2) courses for academic credit per semester. Overload includes all courses taught in excess of the basic teaching load whenever scheduled and whether taught as part of the regular undergraduate or graduate programs.

c. Non-teaching members of the unit shall not be eligible for overload compensation unless they are assigned teaching responsibilities outside their normal workload.

d. Full-time faculty members shall be given preference over part-time or adjunct faculty for available graduate and undergraduate courses for which they are qualified. In the event that no full-time faculty member is available or qualified, adjunct or part-time faculty may be appointed. Such appointments shall follow the procedures provided in Article VII of this Agreement.

e. Chairmen shall strive to be fair and equitable in the rotational assignment of overloads and shall take into consideration such factors as qualifications, experience, ability, and personal needs.

f. Full-time faculty members shall be given first choice in the assignment of extra courses for which they are qualified at the compensation rate specified in Article XVII, Section 4 (Overload Compensation). Questions concerning the qualifications of a particular faculty member to teach a specific course shall be referred to the department faculty and the department chair.

Within two weeks after the tentative schedule has been circulated in the departments, unit members shall indicate, in writing, to the chair their interest in teaching overload assignments for the coming semester. If at any time prior to the start of classes, a course offering is changed with regard to the day, time, or compensation, the department faculty shall be informed of the change by the chair and shall be given the right of first refusal to teach that course. The department recommendation(s) regarding offerings and staffing will be forwarded to the Vice President and Dean of Academic Affairs for review.

g. Department Chairpersons shall have the responsibility to schedule overload courses and assign teaching loads above the base teaching load subject to the prior approval of the Vice President of Academic Affairs.

12.8 Funded Research

A unit member who receives a grant that is intended to pay for research time (with and without special teaching provisions included) shall either:

a. have his workload reduced by a number of hours to which the research time shall be deemed equivalent; or

b. receive the monetary benefits of the grant over and above his regular salary if his teaching load is not reduced; or

c. work out some combination of (a) or (b) to the mutual satisfaction of the faculty member, the department or departments involved, and the appropriate Vice President consistent with applicable Federal regulations.

Any of the above arrangements shall be subject to the approval of the Vice President and Dean of Academic Affairs.

12.9 Outside Employment

No restriction shall be placed on outside employment unless it can be demonstrated that such employment interferes with the performance of a unit member's responsibilities and obligations at the College. The College and the Association agree that regular appointments to the college carry full-time professional responsibilities and that a unit member's primary responsibility shall be to the College. It is therefore agreed that any unit member who enters into a contractual arrangement to provide services which include a specified schedule of time spent off-campus during the time that day classes are offered at the College shall promptly notify the appropriate Vice President of such arrangements. Failure to notify the Vice President shall constitute violation of this Article. No special arrangements as to scheduling of workload or other obligations shall be accorded unit members with outside obligations.

Where the College acts as a contractor with any outside institution or governmental agency and the services of unit members are utilized by the Administration in order to fulfill such a contract, the College and the unit member shall mutually agree upon the terms and conditions of such additional employment. Any such agreement shall be reduced to writing and a copy shall be given the unit member so employed and a copy shall be provided to the Association. Such written agreement shall set forth the obligations of the contractor and shall be binding upon both the unit member and the College. Such agreement may be enforced by either the unit member or the College in any court of competent jurisdiction, but shall not be subject to the grievance procedures of this Agreement.

12.10 Job Descriptions and Assignments - Department or Library Assistant

Specific job descriptions for Department and Library Assistants shall be developed by the department and approved by the Vice President and Dean of Academic Affairs. Duties to be performed shall be assigned by the chairperson, except that department assistants shall not teach credit courses with an academic number of 101 or above. Department Assistants may conduct the laboratory sections of all level credit courses.

12.11 Continuing Education

Beginning with the 1988-89 academic year, the Office of Continuing Education shall be responsible for the non-credit educational program of the College. Credit offerings, whenever scheduled (day, night, weekends, or summer) will be the responsibility of the Vice President of Academic Affairs and the academic departments.

ARTICLE XIII

WORKING CONDITIONS

13.1 Both parties acknowledge that academic freedom is of central importance in the College's commitment to the pursuit of excellence in the communication of knowledge through teaching, and in the advancement of truth through research. The College and the Association therefore endorse the following statement on academic freedom adapted from the 1940 Statement on Academic Freedom as agreed upon by the American Association of University Professors and the Association of American Colleges:

> The teacher is entitled to full freedom in research and in the publication of the results, subject to the adequate performance of his other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.
>
> The teacher is entitled to freedom in the classroom in discussing his subject, but he should be careful not to introduce into his teaching controversial matter which has no relation to his subject.
>
> The college or university teacher is a citizen, a member of a learned profession, and an officer of an educational institution. When he speaks or writes as a citizen, he should be free from institutional censorship or discipline, but his special position in the community imposes special obligations. As a man of learning and an educational officer, he should remember that the public may judge his profession and his institution by his utterances. Hence, he should at all times be accurate, should exercise appropriate restraint, should show respect for the opinion of others, and should make every effort to indicate that he is not a spokesman for the institution.

13.1.1 a. Unit members are entitled to free inquiry, free expression and free association to assure academic freedom.

b. Unit members shall also have the right to speak freely and to express dissent on matters of educational philosophy, institutional policies, and on the administration and operation of the College.

13.2 Consistent with the above statement, the following rights are hereby made part of this Agreement:

a. Consistent with Department standards and policies, unit members shall enjoy full academic freedom in the content of teaching, the selection of textbooks, the methods of instruction, and the conduct of the classroom.

b. Unit members are entitled to the rights of free inquiry, free expression, and free association to assure academic freedom.

c. Unit members shall have the right to speak freely and dissent on matters of educational philosophy, institutional policies, or the administration and the operation of the College.

d. Unit members are entitled to an honest and unprejudiced evaluation of their work and performance.

e. Unit members are entitled to access to those facilities and services of the College that are appropriate to their professional responsibilities with due regard for the rights of others.

f. Unit members have the right to be informed of the rules and provisions that govern their conduct and of the expectation that is set for their performance.

13.2.1 The concept of academic freedom must be accompanied by an equally demanding concern of academic responsibility. The concern of the Association and the College for academic freedom safeguards must extend equally to requiring responsible behavior consistent with the goals of the College. To that end, unit members should exercise their academic freedom with responsibility and should respect the general conditions conducive to academic freedom.

13.3 Faculty members should refrain from shortening, lengthening, cancelling, adding, or rescheduling of classes. If, however, such changes are necessary or are in the interest of academic enrichment, the faculty member shall seek agreement in advance from the affected students. If the necessary change will affect more than one class meeting, the faculty member is expected to gain approval of the chairman who, in turn, shall notify the Registrar or the Vice President and Dean of Academic Affairs, as the case may warrant of such changes.

13.4 Commons Hours

The College shall establish a commons hour at eleven on every Tuesday and Thursday of every semester during the life of this Agreement. During the eleven o'clock hour on Tuesday and Thursday there shall be no classes scheduled. Such time shall be used for student meetings, student convocations, committee meetings, or faculty meetings. The College shall make arrangements with the catering service to provide extended hours for lunch on Tuesday and Thursday for the convenience of students.

Department Chairmen shall in the scheduling of classes arrange all classes so that there is no conflict with the above college-wide commons hours.

This provision shall not be construed to mean that the commons hours are the only time that committees, unit members, or departments may meet.

13.5 College Facilities

13.5.1 Offices: The College shall continue to provide adequate office space for all unit members. Faculty offices shall be enclosed and lockable and shall be furnished with a lockable desk, lockable file cabinet, bookcase, chairs, wastebasket, and other office supplies as may be needed for performing professional duties. The College and the Association agree that it is desirable to provide private offices for unit members which are located as close as possible to the respective department or building in which unit members perform professional duties; given, however, limited space and facilities, it is recognized that such an ideal arrangement may not be feasible for all unit members. Current practice regarding shared office space shall continue; current unit members who would prefer a relocation may request consideration for a change and such consideration shall be given by the College according to availability of space and the current unit member's length of service at the College.

13.5.2 Keys: Unit members shall be provided keys to their office, desk, and file cabinet. Upon written request, unit members shall be provided with a key to the building in which their office is located. With the exception of laboratories and other classrooms which house special equipment, all classrooms shall be kept unlocked. Unit members assigned to teach or work in classrooms which must be kept locked shall be issued keys for such classrooms. No unit member is authorized to duplicate any keys issued by the College. All keys must be signed for when issued and returned when a unit member leaves the employ of the College.

13.5.3 Parking: The College shall continue to provide on-campus parking for the unit member. In addition, the College shall issue without cost to the unit members, a permanent parking permit that would allow parking in all approved areas. Upon sale of a vehicle or upon leaving the employ of the College, the remains of the permit shall be returned to the Security Office.

13.5.4 Safety and Health: The College agrees to continue to make reasonable provisions for the safety and health of unit members in pursuit of their professional responsibilities on College premises. Unit members who wish to work in their offices after hours or when the College is closed, shall notify Security upon entering a locked building and upon leaving the locked building. The College shall provide within the limits of its financial resources, reasonable and adequate security to protect the private property of unit members. In the event of a medical emergency, unit members may be treated at the College Infirmary. It is recognized that the College Infirmary and Health Services has as its primary obligation, however, the health and safety of students.

13.5.5 Physical Environment: The College shall use its best effort to provide unit members with an appropriate environment for carrying out their professional duties within the resources of the College. All classrooms, offices, and halls in the buildings of the College shall be kept clean and equipped with appropriate supplies. The College shall make every effort to see that such classrooms, offices, and halls shall have adequate and safe heating, lighting, and ventilation and cooling systems.

13.5.6 Unit member opinions will be elicited and given serious consideration in the planning of the renovation or construction of instructional and office facilities.

13.6 College Services

13.6.1 Telephones: Within the limits of its financial resources, the College shall, during the life of this Agreement, restore individual telephone service to every full-time faculty member with a private office.

13.6.2 Mail: Individual campus mailboxes shall not be provided to unit members unless such members reside in campus housing, subject to availability after resident students' mailboxes have been assigned. For the sake of improved campus communication, the College shall attempt to establish a mail delivery system whereby mail will be delivered to the academic departments and units at least once a day. The Departments shall provide mail slots for individual unit members in the Department. In the case of unit members whose offices are located in buildings other than that of the Department, such unit members must request a slot in a Department office in the same building.

13.6.3 Clerical and Secretarial Service: Within the limits of its financial resources, the College shall strive during the life of this Agreement to provide more substantial secretarial service to academic Departments. It is recognized that in the case of smaller Departments, such services may be shared by Departments. Within the limits of federal funds available, the College shall also provide Departments with work-study student assistance.

13.6.4 College Vehicles: College vehicles may be used by unit members in fulfillment of their professional responsibilities, when available, provided that requests for reservations for the use of such vehicles are made in advance and approved by the appropriate office. If a College vehicle is not available, unit members using a private vehicle in fulfillment of their professional responsibilities, which use is approved by the College, shall be reimbursed at the current state rate. Such reimbursement shall be provided for any unit member assigned to teach a course offered by the College at a site other than the Dover campus.

ARTICLE XIV

GRIEVANCE AND ARBITRATION

14.1 Intent: The parties recognize and endorse the importance of establishing a prompt, fair, and efficient mechanism for the orderly resolution of grievances and agree to use their best efforts to encourage the prompt settlement of such grievances. The procedures hereinafter set forth shall be used for the resolution of grievances. It is understood that nothing in this grievance procedure shall limit the existing right of an individual member of the bargaining unit to communicate with any person in the College Administration.

14.2 Definition: A "grievance" is a complaint or allegation by a member of the bargaining unit or by the Association that there has been a violation, misinterpretation, or improper application of the provisions of this Agreement, or the past practices and policies hereinbefore defined. Grievances are limited to matters of interpretation or application of express provisions of this Agreement except those provisions which are specifically excluded from the grievance procedure.

14.3 Informal Procedure for Grievances: Any individual member of the bargaining unit or members may at any time present an informal grievance at the lowest administrative level having authority to dispose of the grievance. Such a grievance may be adjusted without intervention of the Association, provided that the adjustment is not inconsistent with the terms of the Agreement. The administrator shall notify the Association in writing of such adjustments. Similarly, any member of the bargaining unit may choose to discuss a grievance with the appropriate member of the administration in the presence of a representative of the Association. The Association may informally present a grievance on behalf of any member of the bargaining unit or the Association to the appropriate administrator. The administrator, upon learning of the grievance, shall investigate the grievance as deemed appropriate and respond to the grievant in writing within five (5) working days. Any settlement, withdrawal, or disposition satisfactory to the member(s) or the Association of a grievance at this informal stage shall be consistent with the terms of this Agreement and shall not constitute a binding precedent in the disposition of other similar grievances, but shall be a final resolution of that particular grievance.

In the event that the grievance is not resolved satisfactorily through the informal procedure, the formal procedure for grievances shall be invoked as follows:

14.4 Basic Provisions

14.4.1 Steps One, Two, and Three of the grievance procedure set forth in this Agreement shall be pursued to completion before any application for arbitration shall be made, unless the parties (as defined in Art. 3.17) hereto enter into a written waiver of such step or steps and agree to proceed directly to arbitration.

14.4.2 Time limits throughout this Article, referring to "days," shall mean "working days" which are defined as days exclusive of Saturday, Sunday, formal holidays, periods when Institutes, Registration, classes and examinations are not scheduled, periods when the College is closed, and Summer Sessions. Either party may be granted, by mutual agreement, a reasonable extension whenever persons necessary for the proper presentation or defense of a grievance are unavailable during non-working days.

14.4.3 At all levels of the grievance procedure and arbitration hearing, the parties shall have the right to have AAUP representation and/or legal counsel present at their own expense.

14.4.4 Unless extended by mutual consent in writing, the time limits specified herein shall be the maximum time allowed. In the event of a failure to comply with the time limits on the part of the grievant(s) or Association, the grievance shall be considered as having been withdrawn. In the event of failure to comply with the time limits on the part of the College, the grievance shall automatically be advanced to the next step of the procedure. If the next step is binding arbitration, the entire cost of the arbitration shall be borne by the College.

14.4.5 Means of Notification shall follow the Notice Provisions of this Agreement, Article XXII, Section 4.

14.4.6 Any information pertaining to the grievance in the official file in the possession of the College needed by the grievant or the Association on behalf of the grievant to investigate and process a grievance shall be provided to the grievant or Association on request within seven (7) working days, at the cost of the grievant.

14.4.7 A member of the bargaining unit who participates in a grievance procedure shall not be subject to discipline or reprisal because of such participation.

14.5 Formal Grievance Procedure:

14.5.1 Step One: The grievant or the Association shall file a written grievance with the appropriate Vice President (appropriate Vice President means the Vice President in whose jurisdiction the charge made in the grievance falls) within ten (10) working days after the decision of the informal step, or within fifty (50) working days of the date on which the grievant knew or should have known of the action or condition which occasioned the grievance. If, however, the occurrence of the event is not immediately discovered by the grievant (or the Association), the time within which to file a grievance shall commence when the occurrence of the event is discovered or should have been discovered by the exercise of due diligence. No such time limitation shall apply regarding a claim that the College miscalculated the salary payable to a member of the bargaining unit. Such notice of a grievance shall concisely state the facts upon which the grievan is based, when they occurred, specify the provision of the Agreement which allegedly has been violated, specify the relief remedy sought, and be signed by the grievant(s) and/or the President of the Association.

The appropriate Vice President shall hold separate or joint conferences within ten (10) working days after receipt of the grievance to discuss the complaint with all relevant persons in attempt to reach a satisfactory settlement. If, within five working days, the Vice Presidents have not agreed in whose jurisdiction a grievance falls, the grievance shall be presented to the President to be assigned to the appropriate Vice Presiden within an additional five working days.

If the grievance is not amicably settled, the appropriate Vic President shall within five (5) working days after the final conference deliver to the grievant and the Association a signed statement of his position regarding the matter. If the grievanc is satisfactorily adjusted, the adjustment shall be signed by th Vice President and the grievant. One (1) copy thereof shall be given to the grievant(s), and one (1) to the Association, and on (1) will be retained by the appropriate Vice President.

14.5.2 Step Two: If the grievance is not adjusted in Step One, the grievant may proceed to the second step of the grievance procedure, provided such appeal is in writing, signed by the grievant(s), sets forth the objection(s) to the Step One respons of the appropriate Vice President and is presented to the President of the College and the President of the Association within ten (10) working days after the receipt of the Step One response. Within ten (10) working days after receipt of the Ste Two appeal, the President of the College and the President of th AAUP shall each appoint one (1) representative from within the College who shall meet to choose a mutually agreeable third person. The members of the grievance panel shall act as neutral investigators whose task is to render an objective and fair decision.

In the event that the appointees are unable to choose a third person within seven (7) calendar days, the President of the College and the President of the Association shall dissolve that committee and each appoint one (1) new person from within the College who shall meet to choose a mutually agreeable third person. The selection of the third person will take place withi seven (7) calendar days which event shall constitute the formati of the panel.

The three (3) person grievance panel shall review the case an the correspondence connected with the case. The grievance panel shall hold separate or joint conferences within ten (10) working days after the acceptance of the third person in an effort to develop a recommendation agreeable to all parties. The panel shall reach their decision within thirty (30) working days after their formation and shall deliver their recommendation to the President, with copies to the grievant, the Association, and the Vice President.

The President shall review all of the materials submitted during the grievance process. In making his decision the President shall give serious consideration to the recommendations of the Step II Panel. The President shall provide a written explanation of his decision, particularly where it differs from the Step II Panel recommendation. Copies of the President's decision shall be given to the grievant, the Association, and the appropriate Vice President within ten working days of receipt of the Step II Panel's recommendations.

If the grievance is satisfactorily adjusted at this step, the adjustment shall be signed by the grievant and copies thereof shall be given to the grievant(s), the Association, and the President of the College and appropriate Administrators.

14.5.3 Step Three: In the event that the grievance has not been settled through Step Two, the Association shall have the sole right to file for arbitration within twenty (20) working days after receipt of the President's decision. Both the College and the Association shall participate in the arbitration proceeding upon receipt of notice that the AAUP has filed for arbitration with the American Arbitration Association. The request for arbitration shall be submitted to the American Arbitration Association for an arbitrator who will be selected under the Voluntary Rules of Labor Arbitration of the AAA then in force. The AAA Expedited Arbitration Procedures will be used for all grievances except those permitted under Article X.

The arbitrator shall hold a hearing as soon as possible and render a written decision (except for expedited arbitration cases) within 30 days of the close of the hearing. The decision of the arbitrator shall be final and binding on all parties and may be enforced or overruled in any court of competent jurisdiction.

If there is a doubt as to the arbitrability of a grievance, the parties will request the arbitrator to rule on the arbitrability of the grievance. If the arbitrator rules that the grievance is arbitrable, he/she will then proceed to conduct a hearing on the merits of the grievance.

The arbitration procedures will be governed by the following:

1. The language of this Agreement shall be binding on the arbitrator.

2. The arbitrator shall neither add to, subtract from, modify or alter the terms provisions of this Agreement. Arbitration shall be confined solely to the application and/or interpretation of this Agreement and the precise issue(s) submitted for arbitration. The arbitrator shall have no authority to determine any other issue.

3. All fees and expenses of the arbitrator shall be divided equally between the parties except as provided in Section 4 of this Article. Any party desiring a transcript of the proceeding shall bear the cost.

14.6 The College shall allow reasonable time set by mutual agreement, for non-teaching members of the bargaining unit to process grievances during normal working hours.

14.7 When an issue presented in a grievance under these procedures is the same as an issue presented in a claim submitted to an outside agency, such as the Equal Employment Opportunity Commission, that issue shall not be heard at any level under these procedures unless there is evidence that such a hearing would facilitate the resolution of that issue. An exception may be made to this policy when a delay in filing with an outside agency would not allow the grievant to file because of the time that it might take to follow the College's grievance procedures. Any issue which has been submitted to and resolved by an outside agency cannot then be presented as a grievance under this agreement. Nothing set forth herein shall delay or otherwise affect the processing of any issue raised by the grievance that is either not within the jurisdiction of the outside agency or not the same as the issue(s) submitted to the outside agency.

14.8 Reservation of Rights: Nothing contained in this Agreement shall be construed to limit the rights of individual grievants or the Association to assert claims against the College in any court or administrative agency of competent jurisdiction.

ARTICLE XV

PERSONNEL FILES

15.1 The College shall maintain only three (3) categories of personnel files on unit members.

15.1.1 There shall be a pre-employment file which shall contain all and only materials requested or received by the College in connection with the original appointment of the unit member. Initial letters of recommendation shall be kept confidential and kept exclusively in the pre-employment file. Other material submitted prior to the unit member's appointment, with the understanding that it be kept confidential, shall be kept in the pre-employment file. Copies of non-confidential materials, such as transcripts, curricula vitae, employment records, or published materials received prior to the appointment of a unit member shall be kept in the official personnel file described below. Confidential materials, such as letters of recommendation, may at the written request of the writer of such materials, be placed in the official permanent file. The pre-employment file shall be kept in the Office of the President.

15.1.2 There shall be official personnel files which shall be maintained by the Vice President and Dean of Academic Affairs and Vice President for Student Affairs for Faculty, Librarians, and Counselors, respectively.

15.1.3 The College shall maintain a Business Office file dealing with routine matters, including but not limited to payroll and benefits. Upon request, unit members shall be provided with adequate and appropriate information from their individual records to meet their stated needs. The Association, as provided in Article VI, Section 16 of this Agreement, shall also be provided with such information and, upon request, may also be provided with adequate and appropriate information to meet needs.

15.2 Each unit member has the right to know of each and every official personnel file maintained on him. With exception of the pre-employment file, members have the right to make an appointment to inspect, within five (5) working days, and during normal business hours, their personnel file as well as information related to payroll, fringe benefits, and other similar specialized items of information which apply to the particular unit member making the request. The unit member may request copies, at his own cost, of any material contained therein. A unit member may not remove his file from the room in which it is housed. Access to unit members' personnel files shall be restricted to the unit member, his authorized agent, the Promotion and Tenure Committee, other authorized committees, and administrative offices of the College or their authorized representatives.

No document shall be removed from a unit member's file without the consent of the unit member and the administration. However, this does not preclude a unit member from grieving material considered inappropriate and through the grievance process, such material can be removed from the files.

15.3 The official personnel file of each unit member shall include, but not be limited to the following:

a. Signed application form.

b. Official transcripts supporting claims to academic work.

c. Documents supporting claims to professional training.

d. Letters or records describing work experience.

e. Copies of all statements of employment.

f. All documents relating to professional growth or performance, including evaluations, correspondence or memoranda of discussions between the unit member and the Department Chairman or the appropriate Vice President or other colleagues or administrators relating to evaluations of professional performance.

g. Documents indicating special competencies, achievements, scholarly research, academic, professional, or other contributions.

h. Non-confidential materials from the pre-employment file.

i. Written material concerning appointment, reappointment, promotion, tenure, completion of probationary period, special terms or conditions of employment, sabbaticals or leaves of absence, and merit increases.

j. All documents pertinent to severance or discipline.

k. Any statements that the unit member wishes to have entered in response to or in elaboration of any other item in the file.

l. An updated curriculum vitae: at the beginning of the academic year, it will be the unit member's responsibility to update the curriculum vitae should such updating be warranted.

15.3.1 Failure of a unit member to supply, upon written request from the appropriate Vice President, the documentation mentioned above may constitute adequate cause for dismissal under Article X, Section 4.

15.3.2 With respect to books, papers, and other voluminous materials relating to professional accomplishments which cannot reasonably be included in a file folder, documentation such as letters from publishers, invitations or programs where papers have been presented, or similar documents, may be included with a notation that the book is in the possession of the unit member. Such materials are subject to be produced by the unit member at any applicable college proceeding.

15.4 The College shall not divulge any data or information from its files relating to any identified unit member without the express written request or written approval of the unit member, except as evidence in legal disputes, response to compulsory legal process, response to requests for proposals which would involve the unit member, accrediting proceedings or as evidence in College hearings. This provision shall not prohibit publication of statistical information or other use of data in which no individual is identified.

15.5 All material for inclusion in a unit member's official personnel file shall be submitted to the office of the appropriate Vice President.

15.6 With the exception of summary reports of student evaluations, no anonymous material whatsoever may be placed in any file held on a unit member.

15.7 Material placed in a unit member's personnel file under Article XV, Section 3 (i, j, k) shall not be considered for routine personnel decision making, including promotion and tenure, if at least seven (7) years have elapsed since the material was placed in the file. However, such materials may be used at any time for cases pending before any court of law or appropriate outside agency.

ARTICLE XVI

RELEASED TIME

16.1 Released time is defined as a reduction in the teaching load or workload in order to carry out professional responsibilities which are of mutual benefit to the College, the Association, or the unit member.

16.2 A unit member who is engaged in special projects or research or who has been elected or appointed to a major committee as chairman may apply for released time by submitting a written request to his chairman with a copy to the Vice President. After thorough consideration of this request which shall involve members of the affected department, the department chairman shall transmit to the Vice President the departmental decision. Final approval of requests for release time rests with the Vice President. An applicant shall be notified of the disposition of the request no later than ten (10) calendar days from the date of transmission by the department chairman.

16.3 No unit member may combine released time and overload without the expressed consent of the chairman of the department and the Vice President.

Such requests should be made at least thirty (30) days before the beginning payment of an academic year. Such arrangements shall continue on a year-to-year basis, unless said unit member notifies the College before June 30.

17.7 Preservation of Base Salary

Compensation for teaching non-credit courses or unusual non-instructional activities and services, where such services are not considered part of the member's basic load, normal faculty responsibility, or other activities covered elsewhere in this Agreement, shall be by special contract arrangements between the unit member and the College. The Association shall be notified of the details of any such special contract arrangement.

17.9 Additional Compensation

In the event that the College wishes to make salary or fringe benefit adjustments which are more favorable than those called for in the Agreement to any individual member of the bargaining unit for purposes matching a bona fide offer from a rival institution, the College may do so. The Association will be informed of such action.

17.10 Salary Study

The Board shall present to the Bargaining Unit, not later than May 30, 1987, the results of a historical salary study of unit members. The study shall examine the consistency in salary, tenure, and promotion decisions. After reviewing the study, the AAUP shall meet with the Board, or its representatives, to develop a plan for correcting any inconsistencies in salary placement. The agreed upon plan shall then be presented to the legislature as a special request for funding. This funding request shall be separate and distinct from the college's annual budget request to the state.

17.11 Excellence Awards

FRINGE BENEFITS

18.2 Information to Individuals

The College shall provide each new unit member and any returning unit member who requests such information with detailed written descriptions of the applicable benefit programs and an explanation of the unit member's options and rights thereunder.

18.3 Leaves

18.3.1 Leave of Absence Without Pay

A leave of absence is defined as a leave without pay. The College and the Association recognize that policies permitting leave of absence without pay for professional or personal reasons may at times be beneficial to both the individual and the College. Such leaves may be for professional development, the completion of graduate requirements, research, faculty exchange with another institution, public or political service, health, child-rearing, or other family or personal needs.

18.3.2 Eligibility: To be eligible for a leave of absence without pay, a unit member shall have two (2) years of continuous full-time service at the college and since a previous leave of absence or sabbatical. Under unusual circumstances, the appropriate Vice President may waive the two year eligibility requirement.

18.3.3 Length of Leave: Leave of absence without pay may be granted for a semester, an academic year, or for a period of time not to exceed a calendar year. Under exceptional circumstances, a leave or any extension thereof may be extended for a limited period not in excess of one (1) additional year. Leaves for shorter periods may be recommended by the appropriate Vice President.

18.3.4 Application and Approval: Requests for leaves of absence shall be submitted in writing to the Department Chairman at least ninety (90) calendar days in advance of the date the proposed leave shall begin. The request shall state the reasons for the leave, the period of absence, and the date of return. Upon the recommendation of the Department Chairman and subject to the concurrence of the appropriate Vice President, a leave of absence without pay may be granted by the Board on the recommendation of the President of the College. Such approval shall not be withheld except in rare instances and for clear and compelling reasons. Unit members who have requested such leave shall be notified within forty-five (45) calendar days from the date of the request as to the recommended disposition of the leave. Any request for an extension of the leave of absence shall be handled in the same manner as the original request.

18.3.5 If a unit member does not return to work by the date of leave expiration, said unit member shall be considered to have voluntarily resigned from the College, unless the unit member was unable to return due to extenuating circumstances beyond his control. If a unit member fails to return and extenuating circumstances are not extant the College reserves the right to seek restitution from the unit member for its share of fringe benefits paid. If, in the event, extenuating circumstances, a unit member requests a return from leave prior to the approved date, the unit member must submit a written request to the department chairman and the appropriate Vice President. In such cases, such a request may be honored provided that it does not violate the contract arrangements of a replacement unit member and that such early return occurs at the beginning of a semester or session. It is understood that leaves of absence shall begin and end so as not to disrupt the academic program.

18.3.6 While on leave, the employee shall retain all benefits accumulated up to the taking of leave but shall not earn sick leave or eligibility toward tenure. All conditions regarding this leave and the return of the individual to Delaware State College shall be stated in a Leave Agreement Document and signed prior to the start of the leave and such document shall be made a part of his personnel file.

18.3.7 Upon return from a one year's leave of absence, unit members' base salary shall be that amount they would have been entitled to on July 1 of the prior year provided the leave involved specific, planned activities involving study, research, scholarship, completion of graduate requirements, faculty exchange with another institution, and public service, or creative work, of mutual benefit to the faculty member and the College.

18.4 Bereavement Leave

Three (3) days of leave with pay will be granted when death occurs in the immediate family (mother, father, grandparents, grandchildren, foster parents, husband, wife, father-in-law, mother-in-law, sister, brother, son, daughter). Additional days without pay may be granted if special circumstances warrant. One (1) day only with pay is granted when death occurs for relatives outside the immediate family. If more time is needed, accrued annual leave or personal leave may be used for this purpose.

18.5 Leave for Court-Required Services

A unit member who, during the academic period during which said unit member is scheduled to work, is summoned and reports for jury duty or is subpoenaed as a witness in a legal action to which the unit member is not a party shall immediately notify the Department Chairman of this obligation. It is recognized that unit members whose primary responsibilities include teaching are usually exempted from jury duty. Unit members who are summoned as jurors or subpoenaed as witnesses shall be granted leave with pay for such court-required service. With the exception of reimbursable expenses, compensation received by the unit member for time spent performing jury duty on scheduled working days shall be remitted to the College. A unit member serving jury duty or as subpoenaed witness is expected to report for work when attendance at court is not required.

18.6 Military Leave

18.6.1 Military Service: The reinstatement rights of any unit member who enters the military service of the United States by reason of an Act or Law enacted by the Congress of the United States, or who may voluntarily enlist during the effective period of such Law, shall be determined in accordance with the provisions of the Law granting such rights. Military service shall include alternative service approved by the Selective Service Commission.

18.6.2 Annual Military Duty: A unit member who is ordered to active duty during an academic period in which he is scheduled to work, upon written request shall be granted a leave with pay, normally not to exceed fifteen (15) working days, to engage in any temporary tour of duty with the National Guard or any recognized branch of the Armed Forces, provided that said unit member remits to the College any military pay earned for those days which would have been his normal work days at the College. In those instances where military pay exceeds College pay, only the amount equivalent to College pay for days involved is to be reimbursed to the College. Unit members serving in reserve units shall make every effort to fulfill their annual military obligation at times that will not disrupt the academic program.

18.7 Annual Leave for Twelve Month Non-Teaching Unit Members

Annual leave shall be granted to twelve (12) month non-teaching unit members in accordance with the following schedule:

a. During the first year of service, annual leave shall accrue at the rate of one (1) day per full month of service up to a maximum of twelve (12) days.

b. During the next three (3) years of service, annual leave shall accrue at the rate of one and one-twelfth (1 1/12) day per full month of service up to a maximum of thirteen (13) days.

c. After completing four (4) years of service, annual leave shall accrue at the rate of one and one-quarter (1 1/4) days per full month of service up to a maximum of fifteen (15) days.

d. For each additional year of service, annual leave shall be increased by one (1) day per year and accrued at a proportional rate until completing nine (9) years of service.

e. After completing nine (9) years of service, annual leave shall accrue at the rate of one and two-thirds (1 2/3) days per full month of services up to a maximum of twenty (20) days.

This schedule does not apply to unit members who have teaching responsibilities or who have ten (10) month contracts.

18.7.1 A member of the unit shall either be accorded leave when the teaching faculty are on vacation or take annual leave as set forth above, but shall not be eligible for both forms of leave.

18.7.2 Annual leave, when applicable, shall be scheduled by the Chairman after consultation with those entitled to such leave and particular regard to the needs of the Department and the seniority and requests of affected unit members. Upon approval of the Vice President and Dean of Academic Affairs, the final schedule shall be sent to those taking annual leave.

18.7.3 Unit members eligible for annual leave shall take their annual leave each year and shall not accrue more than 20 days annual leave from year to year. Annual leave days may be requested as they are accrued; however, such leave days must be taken at time compatible with the College program and any request for a period of uninterrupted annual leave in excess of two (2) weeks must have prior approval and normally shall be requested at least one (1) month in advance.

18.7.4 Before retirement, resignation, termination, or transfer to an appointment not eligible for annual leave, unit members entitled to annual leave shall be expected to use all accrued leave prior to retirement, resignation, termination, or transfer. In the event that circumstances preclude such action, the unit member shall be paid for any unused annual leave. In the event of death, the surviving spouse or the estate shall be paid for unused annual leave up to the amount of annual leave accrued during the last year of employment.

18.8 Holidays

The College shall observe the following holidays: New Year's Day, Martin Luther King Day, Good Friday, Easter Monday, Memorial Day, Independence Day, Labor Day, Election Day, Thanksgiving, Christmas Day. In addition, the College shall observe as a holiday the Friday following Thanksgiving, Christmas Eve Day, the day following Christmas, and New Year's Eve Day. When such holidays fall on a Saturday or Sunday, the appropriate days off shall be granted on the immediately preceding or following day, whichever is appropriate.

18.9 School Closings

Pursuant to Executive Order Number Sixty-Eight which was signed by Governor DuPont on December 18, 1978, Delaware State College will continue to enforce the following policy:

a. If a natural or man-made emergency develops during working hours, the President or his designee may allow non-essential employees to leave work early. However, they may not allow such employees to leave more than two hours before the end of their regularly scheduled days, or darkness, whichever occurs first, without the Governor's approval. No loss of pay or accumulative time-off will occur in the event of early dismissal. However, early dismissal will not operate to excuse unauthorized absence from work.

b. If extreme weather conditions force any employee to be late for work, the employee shall contact his or her supervisor, inform of the impending lateness, and state the expected time of arrival for work.

c. If, on days when he is required to work, any employee cannot reach work due to extreme weather conditions and calls the supervisor(s) the employee will not be paid for the absence, but may elect to use vacation or compensatory time, if any, to cover the absence. Sick leave may not be used for this purpose unless sickness is documented.

d. Whenever the traveling conditions are considered to be hazardous and the possibility exists that twenty-five percent (25%) or more of the students will be unable to keep their class schedule, the President or Academic Vice President shall cancel all classes and faculty members shall be excused for the day.

18.10 Sick Leave

Any absence of a unit member from his assigned duties because of sickness, pregnancy, and related medical conditions shall be charged against the employee's accrued sick leave. Each unit member shall accrue sick leave benefits at the rate of one and one-fourth (1 1/4) days per month of employment by Delaware State College up to a maximum of sixty (60) days. Weekly reports on unit member absences will be prepared by the department chairmen and immediately forwarded to the appropriate Vice President.

The appropriate Vice President is responsible for maintaining the official records on sick leave. When the sick leave extends beyond the number of accrued days of sick leave, the pay of the employee will terminate. If the sick leave is seen to be of some duration, the employee is encouraged to apply for a leave of absence and to contact the Business Office regarding benefits he may be entitled to under the provisions of the Short Term Disability Program.

The College may, from time to time, while a bargaining unit member is on sick leave require a statement from the member's physician as to the condition of the member and the extent and duration of the disability. The College may also request the member to submit to an examination by a physician of the College's choice. In the event that there is a disagreement between the College's physician and the attending physician regarding a member's ability to work, a third opinion may be sought. The choice of a third physician, shall be mutually agreed upon by the College, the bargaining unit member, and the Association. The decision of the third physician shall be binding on all parties. In the event that a member of the bargaining unit on sick leave refuses or fails to submit a medical certificate upon request or refuses to allow examination by another physician, the College shall be free to initiate procedures to deny the member paid sick leave.

18.10.1 Bargaining unit members on sick leave shall receive their regular compensation during the period of the leave, as well as any increases, promotion, award of tenure, or any other rights and benefits which they would have received individually or as a member of the bargaining unit had they not been on such leave. Non-teaching unit members who become ill after working three and one-half (3.5) hours may leave work without the absence being charged against their accrued sick leave.

18.10.2 Upon return from sick leave, the bargaining unit member shall resume regular duties. In the event that courses have already been initiated and are well in progress under substitution provisions, the teaching faculty member, on approval of the Vice President and Dean of Academic Affairs, shall be assigned other duties consistent with academic responsibilities and shall resume teaching at the beginning of the next semester or session. The College may request, at the expense of the unit member, a medical certificate attesting to the member's ability to return to work.

18.10.3 In the event, by reason of illness or disability, a member of the bargaining unit continues to be incapable of performing the regular duties of a member of the unit, after the expiration of accumulated sick leave, the affected member may apply for disability benefits pursuant to the terms and conditions of the disability insurance plans then in effect. The affected member shall have the option of considering other alternatives such as unpaid leave of absence, early retirement, etc., that might best benefit both the College and the member of the bargaining unit.

18.10.4 Upon death, retirement, or termination, a member of the unit shall be entitled to a cash payment for all accumulated and unused sick leave up to a maximum of sixty (60) days. In the event of death, payment shall be made to the spouse or estate of the unit member.

While on sick leave, a unit member shall not be entitled to use annual leave time. Sick leave shall not be charged when a unit member's sick leave occurs on any scheduled holiday or any other day when the unit member is not normally scheduled to perform professional responsibilities.

Subject to provisions of the insurance carrier in effect at the time, nothing herein contained shall preclude the appropriate Vice President from authorizing additional paid sick leave benefits, when, in his discretion, circumstances warrant such benefit.

18.11 Personal Leave

Personal leave for one (1) day shall be granted to unit members as personal, urgent, or compelling business may occur. All unit members shall be entitled to no more than four (4) such personal leave days each year. Such leave shall be with pay and may be arranged informally with the department chairman and the concurrence of the appropriate Vice President. Such personal leave is not to be considered as an inherent right and cannot be accumulated. It is expected that unit members will exercise the benefit described herein with discretion in order that there be no dislocation to the academic program or inconvenience to students and colleagues.

Unit members who are ranked faculty shall be charged leave days only on those days on which they have assigned duties.

18.12 Notification

As soon as decisions are made, the College shall furnish the Association with a list of all members of the bargaining unit who have been granted any kind of leave which includes a term of a semester or more, including an indication of those for whom a replacement position shall be needed. In addition, the College shall furnish the Association with a list of those who have been denied requests for leaves which includes a term of a semester or more.

ARTICLE XIX

GOVERNANCE

19.1 General Principles

Although the Association, as the elected bargaining agent, retains the exclusive right to negotiate and reach agreement on terms and conditions of employment for members of the bargaining unit, and the Board of Trustees retains its rights, under law, to manage and direct the College, the parties recognize the necessity of a collegial governance system for faculty and other members of the bargaining unit in matters of academic concern. It is mutually desirable that the collegial system of shared governance be maintained and strengthened so that faculty and other members of the bargaining unit shall have a mechanism and procedure, independent of the collective bargaining process, for making recommendations to appropriate administrators and for resolving matters of concern to the faculty through the organizational structures of the Departments, the Faculty Senate, the Administrative Council, and the Board of Trustees. To that end, the parties agree to the following principles:

a. The Faculty of the College shall be able to make its opinion about matters affecting the College known to the Administration.

b. The Faculty of the Department shall be able to make its opinions about matters affecting the Department known to the Chairman.

c. The Faculty shall have a voice through Faculty representatives elected for that purpose to serve on Department, Senate, or College committees in the formulation of policies and in decisions relating to their implementation.

d. The parties to this Agreement recognize the presently constituted organizations within the College, i.e., the Departments, the Faculty Senate, the full Faculty in session, which are composed, in whole or in part, of the faculty and may exercise all the rights and powers, and prerogatives that they have heretofore possessed, provided that the actions thereof may not directly or indirectly repeal, rescind, or otherwise modify the terms and conditions of this Agreement.

e. Both parties to this Agreement recognize the Faculty Senate as the primary body for insuring effective Faculty participation in the governance of the institution and providing the means for the Faculty to exercise its responsibilities.

19.2 Departmental Governance

19.2.1 Departments or academic units shall consist of a Chairman or Head and Faculty members and other members of the bargaining unit assigned to the department. Academic Departments shall be established by the College with the advice of the full Faculty or the Faculty Senate. The Library, the Learning Skills Center, and the Counseling Center shall be, for the purposes of implementing this Article, treated in the same manner as Academic Departments. With respect to the following departments (Library, Counseling, Learning Skills, and Extension Agents), unit members shall recommend a department head or director for up to a three (3) year term, beginning with the 1988-89 school year.

19.2.2 The Department is the structure through which the unit member shall act in academic and personnel matters.

19.2.3 A Department, either as a whole or through committee, shall have primary responsibility for the content and development of courses, curriculum, and programs of study within its discipline; for forming Department policies with respect to majors and the general academic standards of the department; for establishing and maintaining standards of teaching, research, and service; for establishing departmental criteria and procedures with respect to recommendations concerning appointment, reappointment, non-reappointment, promotion, tenure, sabbatical leave, peer review, part-time appointments, staff appointments, and other personnel recommendations; and to advise, aid and counsel the Chairman in administering the department.

The Chairman shall serve as Chairman of the committee of the whole. Departments shall express their recommendations by majority vote. Eligibility to vote shall be limited to those full-time and half-time members of the Department who hold the rank of Instructor or above or the equivalent.

Such action shall not conflict with this Agreement, College policies, procedures, or regulations.

19.2.4 The Department may establish whatever committees and procedures it deems appropriate to carry out its internal responsibilities, consistent with college-wide policies and practices and this Agreement.

19.2.5 Each Department shall establish written by-laws, subject to a majority vote of the Department, describing its structure, procedures, and policies. A copy of such by-laws shall be filed with the appropriate Vice President and the AAUP. Such by-laws shall not conflict with this Agreement, or with College policies, procedures, or regulations.

The purpose of the Department By-laws is to outline the procedures to be followed by the Department in performing their obligations assigned to the department under this Agreement.

19.2.6 In accordance with the provision of Article VIII of this Agreement, each Department shall establish a Personnel Committee of tenured Faculty members to make recommendations concerning appointment, reappointment, non-reappointment, promotion and tenure of members of the Department. In the event that a Department lacks tenured faculty members, the Department Personnel Committee shall be composed of other members of the Department in order of seniority (length of service). The Counselors and Librarians shall act as a committee-of-the-whole.

It is understood that a member of the Department whose case is being considered by the Personnel Committee shall not participate in such meetings except at the request of the Committee.

19.2.7 Each Department shall meet as needed at the call of the Chair, but not less than twice a semester. All members of the Department shall receive timely notice of such meetings. The Chair of a Department must call a meeting if requested to do so in writing by at least thirty (30) percent of Department members. Minutes of the meetings shall be kept and distributed to all members of the Department. A copy of the minutes shall be filed with the appropriate Vice President . Departmental secretaries may be requested by the Department Chair to keep Department meeting minutes when the meetings are scheduled during their normal workday.

19.2.8 All references in this Article to Department Chairpersons shall also apply to Academic Directors and the Head Librarian.

19.3 Designation of Chairman

Department Chairman are ranked faculty members who shall be appointed for a period of one year by the Board of Trustees upon the recommendation of the President. Department Chairmen are responsible for directing their respective Departments. They have the obligation to build Departments strong in scholarship, teaching capacity and community service.

Appointments to the position of Department Chairman by the Trustees shall be in accordance with the following procedures, except in emergency circumstances as described in succeeding paragraphs. Except where a department has recommended that an appointee be automatically reappointed for a period of up to three years, an annual recommendation in regard to its preference for Department Chairman shall be provided to the Vice President and Dean of Academic Affairs by each academic department, with appropriate evidence.

Procedures: The recommendation by a department in regard to its preference for Department Chairman shall be the preference of a majority of department faculty present and voting by secret ballot at a duly called meeting of the department faculty. The conduct of the meeting shall be in accord with established parliamentary authority in regard to elections, except the balloting is to designate a nominee for consideration by the Vice

President and Dean of Academic Affairs. The meeting shall be presided over by the appropriate Assistant Academic Dean. In the event there is a tie and two names are presented to the Vice President and Dean of Academic Affairs, the Vice President and Dean of Academic Affairs shall recommend one of the nominees tied for first place. Only under unusual circumstances will a Chairman be recommended by the Vice President and Dean of Academic Affairs who does not meet the approval of a majority of the Department Faculty. If this should occur, the Department may present evidence in support of its nominee directly to the Vice President and Dean of Academic Affairs. If the Vice President rejects the evidence of the Department and does not support its recommendations, the Department may appeal to the President of the College.

In the absence of a regularly appointed Chairman, the Department may recommend an Acting Chairman whose term shall not exceed one (1) year, and recommend said person to the Vice President and Dean of Academic Affairs. The Vice President and Dean of Academic Affairs, in consultation with the Association and members of the Department, reserves the right to recommend a Chairman to the President in order to promote Departmental continuity and efficiency, or in connection with the establishment of a new Department.

In emergency situations, the President shall fill the vacancy on a temporary basis until the normal procedures for Departmental recommendations can be carried out.

19.3.1 Searches for Department Chairman shall be conducted according to the following procedures:

a. The decision to recruit a Chairman from within or without the Department or to conduct a "mixed" search shall be the decision of the Vice President and Dean of Academic Affairs in consultation with the members of the Department and the appropriate Assistant Academic Dean.

b. If an outside search is conducted, it shall follow the procedures established for initial appointments, subject to the provisions of this Agreement.

c. In the event that a Chairman is to be designated from within the Department, the affected Department shall follow the procedures for recommending a Chairman as outlined in Section 19.3.

d. In the event that two-thirds of the membership of a Department petition the Vice President and Dean of Academic Affairs for the removal of a Chairman, the Vice President and Dean of Academic Affairs will confer with the appropriate Assistant Academic Dean. The Vice President shall make his recommendation for the removal or non-removal to the President of the College. In the event that the Vice President recommends removal of the

Chairman, this decision may be appealed to the President of the College.

19.3.2 The Department Chairman shall be responsible to the appropriate Assistant Academic Dean for the day-to-day operation of the department.

19.3.3 In the event that a Chairman fails to carry out his responsibilities, he will be subject to removal from the position of Chairman.

19.4 College Governance

To better meet its educational goals, Delaware State College is committed to furthering joint planning and effort by the Board of Trustees, the Administration, the Faculty, the Students, as well as other segments of society. It is recognized that the interests of all are coordinate and related and that the broadest of possible exchange of information and opinion is necessary for the effective planning and implementation of the College's educational objectives. It is also recognized, however, that the distinction between the institutional system of communication and the system of responsibility for making the decision needs to be preserved. This means that while each component of the academic community has different initiating and decision-making responsibilities, all components need to exchange information and opinion before final decisions are reached so that the confusion and/or conflict arising from unilateral effort can be avoided.

The primary responsibilities of the Board of Trustees and the President are outlined in the Charter and By-laws of Delaware State College. The faculty has primary responsibility for reviewing, discussing, and making policy recommendations in such areas as curriculum, standards, research, faculty status, honorary degrees, and student activities related to the academic life of the College. The power of review or final decision in these areas is lodged in the Board of Trustees or delegated by it to the President. Only in exceptional circumstances, however, will nonconcurrence be exercised, and the reasons for the action will be communicated to the faculty in writing.

19.5 Participating on Search Committee

Ranked faculty members shall be included on all search committees for major academic Administrators.

19.6 Administrative Equivalence

For purposes of this Article, the Vice President for Student Affairs shall serve the same function for the Counseling Center that the Vice President and Dean of Academic Affairs serves for the academic units.

ARTICLE XX

PAST PRACTICE

20.1 The parties agree that certain existing practices and policies, which have not been addressed in this Agreement, should be maintained provided that they are not in conflict with this Agreement. In the event that a question arises as to a conflict of such a past practice with this Agreement or as to the applicability of such a past practice to a unit member, the matter shall be referred to the Chapter-College Committee for disposition.

20.2 During the life of this Agreement, no new practices or policies which affect the conditions of employment of unit members may be initiated without prior discussion with the Association.

ARTICLE XXI

LEGISLATIVE CLAUSE

21.1 Where a provision of this Agreement requires legislative action, other than appropriations, for its implementation, AAUP and the Board agree to meet to discuss the drafting of such legislation, and its introduction into the legislative process. Where mutual agreement is reached on the proper form of the desired legislation, and the proper introduction of such legislation into the process, then the parties shall lend their support to the passage of such legislation.

21.2 It is agreed by the parties that any provision of this Agreement which requires legislative action to permit its implementation by enactment of a bill into law, or by appropriation of fund therefor, shall not become effective until the necessary legislative action is obtained.

21.3 If the Legislature appropriates insufficient funds to completely implement any provision of this Agreement, the Association and the Vice Presidents shall meet and discuss possible reallocations of the appropriated amount for the bargaining unit so as to put into effect the financial items of this Agreement. By August 15, and after the meetings and discussions, the Vice Presidents shall notify the Association in writing of the final disposition of the appropriated funds and the reasons therefor.

ARTICLE XXII

IMPLEMENTATION OF AGREEMENT

22.1 Scope of Agreement

This Agreement constitutes the entire negotiated Agreement between the College and the Association and supersedes any previous regulations, Faculty contracts, previous practices or policies which may be in conflict with the expressed terms of this Agreement. This Agreement shall constitute the Master Agreement for all members in the bargaining unit.

22.2 No Strikes or Lockouts

Both parties subscribe to the principle that any and all differences under this Agreement may be resolved by peaceful and appropriate means without interruption to the College program. The College, therefore, shall not institute or support any lockout or threat thereof, and the Association shall not institute or support any strike, work stoppage, work slowdown, or other job action which in any way interferes with the normal operation of the College during the life of this Agreement.

22.3 Separability

The provisions of this Agreement shall be separable. If any phrase, clause, sentence, or provision of this Agreement or any application thereof, shall be determined to be contrary to law, the validity of the remainder of this Agreement and the applicability thereof, shall continue in full force and effect.

22.4 Notice

Unless otherwise provided, where notice is required to be given, it shall be sufficient:

a. in the case of a unit member, if sent by certified mail to his last reported residential address; and a copy sent to the campus mailbox;

b. in the case of the AAUP, if sent by certified mail to the President of the AAUP at the campus mailbox or at the last reported residential address, or hand-delivered to and signed for by the President of the AAUP;

c. in the case of the Board, if sent by certified mail to the President's office, Delaware State College, Dover, Delaware 19901, or hand-delivered to and signed for by the President; and

d. in all other cases, if sent by campus or regular mail to the campus office or regular business address of the person or party.

Where notice is required to be given by a date certain, it shall be effective if deposited in the regular mails by midnight of the day prior to the specified date, or if hand-delivered, signed for by the recipient no later than the specified date. Where notice is required to be given within a certain time period, it shall be effective if deposited in the regular mails by midnight prior to the last day of such time period, or if hand-delivered, signed by the recipient no later than the last day of such time period.

22.4.1 "Reasonable Time" or "Reasonable Notice" as used throughout this Agreement, unless otherwise covered in a specific Article, shall refer to ten (10) working days or fifteen (15) calendar days if the College is not in session. When "reasonable notice" applies to situations where the Association has made written request to the Administration, the notice period shall begin upon receipt of such request.

22.5 Non-Assignment of Agreement

This agreement cannot be assigned by the AAUP without the prior expressed written consent of the Board.

22.6 Agreement Management

In order to facilitate communication between the AAUP and the Administration, a Chapter-College Committee consisting of six (6) members, as follows, is established. The AAUP will appoint, through its President, its chief negotiator and two (2) other members. The Administration, through the President, will appoint its chief negotiator and two (2) other members.

The duties of the Committee will be to recommend interpretation of language, discuss problems of Agreement implementation and management, identify Agreement oversight or lack of clarity, make suggestions for improved Agreement management and settle, if possible, unit clarification issues.

The Committee may authorize the chief negotiators to draft a Memorandum of Agreement on any contractual oversight or clarification necessary. Such memoranda will form a part of the Agreement between the parties when signed by the parties. This Committee will normally meet three times in each semester or as needed. Chairmanship of this Committee shall rotate one semester at a time between the parties.

The Committee will not become involved in the grievance process. The parties further agree that this Chapter-College Committee is the proper forum to use in assigning academic governance questions which have collective bargaining impact to other existing or Ad Hoc institutional committees when both parties feel this would be a proper academic posture.

22.7 Printing and Distribution of Agreement

The Board and AAUP shall cooperate in preparing and printing this Agreement. The Board shall prepare the master copy for printing. The costs of production shall be shared equally by both parties, based upon a mutual agreement as to the number of copies to be printed. The Association shall be given the opportunity to proofread the final draft of the Agreement before its reproduction.

ARTICLE XXIII

EFFECT, DURATION, AND RENEGOTIATION

23.1 Totality

This collective bargaining Agreement represents the complete Agreement between the parties and supersedes any and all prior Agreements, understandings, customs, and practices. This Agreement incorporates all the mutually-agreed-to subjects of negotiation and both parties acknowledge that they were free to discuss all matters of concern dealing with wages, workload, and working conditions. The parties further acknowledge their mutual right during the term of the Agreement to initiate good faith negotiations on any matters of concern.

23.2 Effect

This Agreement shall be in full force and effect beginning September 1, 1986, with certain provisions to be adjusted or modified by the Chapter-College Committee during the first year. This Agreement shall continue in force and effect until August 31, 1990, and shall automatically be renewed thereafter for further periods of one (1) year unless either party notifies the other in writing at least six (6) months prior to the expiration of this Agreement.

Whenever such notice is given by either party of a proposed change, the nature of any proposed change desired must be stated in the notice and the parties shall promptly enter into negotiations.

If pursuant to such negotiations an agreement on the renewal or modification of this Agreement is not reached prior to the expiration date, this Agreement shall continue in effect during the period of negotiations until a new Agreement is reached.

In recognition of the budgetary process of the State of Delaware, both parties agree to begin preliminary discussion that would be directly affected by the State budget request for the next fiscal year during August of the final fiscal year of this Agreement.

23.3 Renegotiation

Ground rules for negotiating sessions shall be negotiated at the first session.

The parties mutually pledge that their chief negotiators shall be clothed with the necessary power and authority to make proposals and counter-proposals in the course of negotiations.

Neither party in any negotiation shall have any control over the selection of members of the negotiating representatives of the other party.
